

Home and Community Based Services (HCBS) Provider Quality Self-Assessment

2022

Instructions

This form is required for organizations enrolled to provide HCBS Waiver or Habilitation services in section II. Service Enrollment.

It is strongly recommended that organizations required to submit the annual Provider Quality Self-Assessment, review the full instructions, Frequently Asked Questions (FAQ), troubleshooting tips, and complete the training found here.

The annual self-assessment process requires the completion of two separate documents. The Provider Quality Self-Assessment form is a fillable PDF and must remain in that format upon submission. It includes an electronic signature attesting that the information submitted is true, accurate, complete, and verifiable. The Address Collection Tool is a spreadsheet and should remain in that format upon submission. The attestation also covers information submitted on the Address Collection Tool. Organizations are responsible for ensuring signatory authority. The annual Provider Quality Self-Assessment training and corresponding Frequently Asked Questions (FAQ) addresses some common problems with completing and submitting the self-assessment and Address Collection Tool. Each organization is required to submit an acceptable self-assessment and corresponding Address Collection Tool by December 31 each year. Incomplete or inaccurate self-assessments, including Address Collection Tools, will not be accepted. Failure to submit a complete and accurate self-assessment by the December 31, will result in a referral to Iowa Medicaid's Program Integrity Unit for appropriate action, which may include sanctions and disenrollment from Iowa Medicaid.

Below is a brief explanation of each section of the Provider Quality Self-Assessment form. For full instructions, troubleshooting tips, and training on the annual Provider Quality Self-Assessment and corresponding Address Collection Tool, please click <u>here</u>.

I. Organizational Details. Identifies the organization submitting the forms.

<u>II. Service Enrollment</u>. Identifies the programs and services your organization is enrolled to provide. If you are uncertain which services you are enrolled for, contact Iowa Medicaid <u>Provider Services</u> via email <u>imeproviderservices@dhs.state.ia.us</u> or contact your HCBS Specialist.

Please note that you are responsible for completing the self-assessment process for all programs your organization is enrolled to provide, regardless of whether these services are currently being provided. If you wish to disenroll from a service, please contact your HCBS Specialist.

470-4547 (Rev. 11/22) Page 1 of 28

<u>III. Self-Assessment Questionnaire</u>. Provides an outline of all basic standards required by law, rule, industry standards, or best practice. You should read each standard, consider your organization's current situation, and select the most appropriate response.

Selecting Yes means your organization meets the standards and would be able to provide verifiable evidence of meeting the standard. You may meet the standard because you are required to by law or rule, organization policy or because your organization does so as best practice or because you are required to by another oversight entity outside of lowa Medicaid.

Selecting No means your organization does not meet the standard but is required to by law, rule, or organization policy or the standard is otherwise necessary for the services your organization is enrolled to provide. If you select No, you must provide a response in the designated box describing your plan to meet the standard(s). A plan is sometimes also known as a "remediation plan", corrective action plan, or "CAP". It describes what the organization will do correct the problem with specific timelines for achieving compliance.

Selecting NA means the standard is not required by law, rule, or organization policy and is not otherwise necessary for the services your organization is enrolled to provided.

At the end of each topic, there is an opportunity for your organization to highlight how your organization meets or exceeds the requirements.

IV. Guarantee of Accuracy. Identifies your organization's pertinent certifications, accreditations, and licensures. Typically, you would list certifications, accreditations, and licensures that make your organization eligible to enroll for and provide any services identified in II. Service Enrollment. The Guarantee of Accuracy also requires your organization to attest that the information and responses are true, accurate, complete, and verifiable.

V. Direct Support Professional Workforce Data Collection. Provides details about your direct service workforce.

The Address Collection Tool is not published on the Provider Quality Self-Assessment webpage with the other self-assessment documents and resources. A copy of the annual Address Collection Tool is emailed to organizations at the time the annual self-assessment is released each year using the email contacts provided on the previous year's self-assessment. If you did not receive this year's version of the Address Collection Tool, please contact your HCBS Specialist. The Address Collection Tool is a required component of the self-assessment.

Questions should be directed to the HCBS Specialist assigned to the county where the parent organization is located. For a complete list of Quality Improvement Organization (QIO) HCBS Quality Oversight Unit contacts and a list of HCBS Specialists by region, please click here.

D. HCBS SETTINGS

The Centers for Medicare & Medicaid Services (CMS) issued regulations that define the settings in which it is permissible for states to pay for Medicaid HCBS. The purpose of these regulations is to ensure that individuals receive Medicaid HCBS in settings that are integrated in and support full access to the greater community. This includes opportunities to seek employment and work in competitive and integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree as individuals who do not receive HCBS. Use the questions below to self-assess your organization's compliance with these settings rules. Additionally, you must complete the corresponding Address Collection Tool to list all provider owned and controlled HCBS service locations.

The following services are subject to the HCBS Settings Rule. Adult Day Care Agency CDAC **Assisted Living Service** Day Habilitation Home Based Habilitation **Prevocational Services RBSCL** SCL Supported Employment If your organization is NOT enrolled for any of the services identified above, check this box proceed to section IV. Guarantee of Accuracy. *HCBS are required to be provided in such a way that the following standards related to service settings are met. If an individual requires a restriction or limitation in one or more of the areas listed below, due process of that restriction or limitation should be outlined in their person-centered plan. Policies and procedures related to restrictive interventions and person-centered planning should be followed.
