Findings:

The doors under your kitchen sink need to be secured from access by children if you wish to store poisonous, toxic or unsafe materials in this location. This should be done immediately. You need to test your smoke detectors monthly and keep a record of this. You need to add a flood shelter area to your emergency and disaster plan (which you have posted at primary and secondary exits). Written procedures need to be in place regarding: evacuation/relocation/shelter-in-place/lock down/communication & reunification/continuity of operations/procedures to address the needs of individual children. Two of the three children present on the date of the visit need updated physical exam forms. Please comply with the requirements within 45 days.

Suggestions/Recommendations:

Corrective Action Required:

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.
