Findings:

There was a 10 month old baby sleeping with a blanket in the crib. The baby also uses a pacifier with a stuffed animal attached to it.
Lindsey's twins had physicals in the file, but they were expired.
Children's files- two children had started her childcare without files returned from the parents.
Lindsey had 5 children needing updated physicals in her child care.

Suggestions/Recommendations:

Lindsey shared she is fencing in her yard with a separate area for the dog run. This is an excellent safety guard for the child care.
This worker spoke to Lindsey about safe sleep, she has two babies (age 10 months and 6 months) that sleep with blankets at home, she is having a hard time getting them to sleep without blankets at her day care. I told Lindsey she can only use sleep sacks, she is willing to write a policy on safe sleep to hand out to the parents. Lindsey shared that she is in need or new sleep services, preferably cribs. Lindsey will talk to the parents about getting a regular pacifier, she will no longer use the pacifier with the stuffed animal attached.

Corrective Action Required:

Lindsey will stop using blankets with the babies during nap rime. She will get some sleep sacks to use. Lindsey will not give the baby the pacifier with the stuffed animal attached.
Lindsey will schedule her twins for their physical or will get the print out of their last visit.
Lindsey will continue to try to get day care children's files updated. It should be noted that she had printed all the required paperwork and given it to the parents. She was waiting for the parents to return the forms for her files.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.
