Findings:

Heather did not have a NO Smoking sign at the back patio door.
Heather did not have an Emergency and Disaster plan for fire and tornado at her secondary exit.
Heather did not have her fire and tornado drills documented.
Heather had her provider physical on the correct form, however it had expired.
Child files- two children need updated physicals.

Suggestions/Recommendations:

A form was given for Heather to start documenting fire and tornado drills.
Heather explained that the family had gotten a new patio door and she forgot to put a no smoking sign and the Emergency and Disaster plan back up. She will get those back up, but would be interested in getting a NO Smoking cling sign from CCRR.
Heather will update her physical this summer when she goes to the Dr.
Heather will update the children's records during the summer when she is closed.

Corrective Action Required:

Update the children's files yearly.
Keep the fire and tornado drill document somewhere visible as a reminder to practice them and document. If you do not want it visible all the time, you can get in the habit of setting it out the first of every month, and keep it out until it is done. Once completed you can put in back in the cupboard or file (where you decide to keep it).

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Please do not hesitate to contact me at DHS at 515-573-1640, jduffy1@dhs.state.ia.us if you have any questions regarding this letter.
