CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Jill has been a registered child development home provider since 2013. Jill cares for all ages of children, but primary infant and pre-school ages. Jill does not provide transportation for children. The daycare is located in the lower level of Jill's home, which includes steps up to an egress window.

2. Identify Observed Strengths Of The Program

This worker was greeted at the door and taken to the lower level of the home, which is the daycare area. Two of the provider's school-age children were also present in the daycare. This worker observed a very clean and tidy play area with a lot of different "stations" for the children to play in. Some of the children were playing in an area identified as the "food truck", where there was play food and play cooking equipment. Other children were observed playing with a princess castle. This worker observed an infant in a gated-off area, playing with age-appropriate toys. The provider was able to meet with this worker while also interacting and supervising the children playing. The provider had an organized binder and was able to provider all the necessary paperwork for the compliance visit. The lower level of the home has adequate space for the children to play and spread out with the many toys available.

3. Identify The Aspects That Fall Below The Standard

The provider was found to be in full compliance of all rules and regulations.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

N/A

5. Special Notes/recommendations

N/A
