1. Basic Overview

Heavenly was initially Registered for childcare from 2016 - 2020. Her home was damaged in the Derecho. She became registered again in 2022. Heavenly currently has three children enrolled and does 3rd shift care during the week. She is open to caring for other children from the age of 6 months through school-age. Heavenly does not participate in the IQ4K quality rating system. She does not participate in the food program. Heavenly recently changed from a Category A to a Category B provider. She uses the main level of her home for childcare and has set up her garage as an additional space for the children to play. As a Category B provider, her upper level is not approved for childcare as she does not have an approved secondary exit. Heavenly does reside off a busy street and her yard is not fenced. She did describe that there is a park nearby they will go to and she does use he back area and garage as play space for the children. Heavenly does not have any pets. Heavenly's mother (who is also a registered childcare provider) is approved as a substitute and assistant.

CHILD CARE ANNUAL EVALUATION

2. Identify Observed Strengths Of The Program

There were no children in care at the time of this annual visit. As noted above Heavenly currently provides care during third shift on weekdays.

Heavenly has a variety of toys and activities to offer to the children including books, crafts and items for both small muscle and large muscle development. Her home is clean and organized.

Heavenly's documentation was nicely organized into a binder that allowed for easy review for compliance.

3. Identify The Aspects That Fall Below The Standard

110.8 (1) h : Has a minimum of one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway.
Heavenly does have her garage set up as a play space for the children. She did not have a smoke alarm in that child occupied space.
*Heavenly needs to obtain a smoke alarm for the garage and send pictorial verification to HHS.
-Heavenly's mother ran to the store while I was at Heavenly's home and returned while I was still present. The smoke alarm was installed in the garage before this worker left the home.

A re-check is not needed at this time. The above corrections should be made within 3 weeks (by 4/17/26) and will be reviewed at the next annual compliance check.
Note: Heavenly has already come into full compliance at this time.

Thank you for your service in providing childcare in your community.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

Notes:
Heavenly does offer transportation.
Heavenly shared that she does not ever use a swimming pool but does take the children to the YMCA to swim or to a splash pad.
We did discuss safe sleep policies.
We did discuss the number of children she is allowed to care for at one time as a Category B provider.

As part of the 2026 Targeted compliance the Emergency Preparedness Plan was thoroughly reviewed. Heavenly was in compliance with her EPP. or provider needs to do some
She was encouraged to review it at least yearly to ensure that no changes need to be made.

Recommendations:
Heavenly did not yet have anything written in regard to notifying parents in writing that the state does allow parents to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. This is a new expectation for providers effective 7/1/25 so we did discuss this, and she agreed to get that documented accordingly.
