CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Erin is in the process of becoming a registered child care provider with the state of Iowa. Erin has a history of involvement with child care including being a nanny, working in a Head Start preschool setting, and working in a child care center. When Erin had the opportunity to open her own child development home, she welcomed the opportunity. Erin will be accepting children aged infant through 12 years of age and will be available for care Mondays through Fridays from 6:30 a.m. - 5:00 p.m. Erin states she will be providing a loving and learning experience for children where healthy meals are provided daily. Erin is a strong believer in structure and routine and will have this in place for children in her care.

2. Identify Observed Strengths Of The Program

Erin believes her greatest strengths in working with children is her ability to provide structure and routine. Erin stated she learned a lot about positive discipline for children while she worked for Head Start. Erin will be seeking information on the CACFP food program for child care providers and also information on the child care management services apps that are available to providers to assist them with their business practices. Erin is working with Child Care Resource and Referral and plans to continue that relationship to assist her in providing quality child care.

3. Identify The Aspects That Fall Below The Standard

110.8 (1) e : An annual laboratory analysis shows satisfactory bacteriological quality if a private water supply is used. Nitrate analysis when children under 2.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

Erin needs water sample of private water completed. Since this is the only item needed to approve pre inspection, Erin has agreed to provide only bottled water until the safe water sample results are received. Erin will send completed water test to Kathy immediately upon receipt. This can be emailed to kathy.huinker@hhs.iowa.gov or texted 563-949-6971.

5. Special Notes/recommendations

Targeted compliance of Emergency Preparedness Plan completed. Plan is accurate and up to date.

Erin's pre inspection will be approved. Erin does still need to submit completed water sample results to Kathy.

HHS Child Development
Home Compliance Worker: Kathy Huinker Date: 8/28/2026

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Child Care Resource and Referral is an excellent resource for providers to access training options and support in your area.
