Each smoke detector shall be installed according to manufacturer's recommendations. The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes

Martisha was missing a smoke detector in her dining rom. There was a space where one had been, but it was not up on this date.

Martisha had not tested her smoke detectors monthly and did not have the documentation that goes with the monthly testing. This worker did prove her an updated form to use for future documentation.

The kit shall be sufficient to address first aid related to minor injury or trauma and shall be stored in an area inaccessible to children. Procedures to address the needs of individual children, including those with functional or access needs

Martisha could not locate her Emergency Preparedness Plan. This was also the case last year and she did develop an EPP plan, but she could not locate it on this date. This worker did provide her the template for the EPP and an example template for her to use if she needs to redevelop it.

441 IAC 110.9(1)“b” (1) I-PoWeR records or certificates verifying required training completion:

Prior to registration:

For a child who is five years of age or older and enrolled in school, a statement of health status signed by the parent or legal guardian may be substituted for the physical examination report.
The examination report or statement of health status shall be on file before the child’s first day of care
For children under the age of 6, a statement of health condition signed by a physician or designee submitted annually from the date of the admission physical.
