[ ] Registered Child Development Home C1

[ ] Non Registered Child Care Homes accepting CCA

Program Population Served:

[X] Infant(0<24 mos)

[X] Toddler

[X] PreSchool

[ ] School Age

[ ] All Ages

1. Basic Overview

Angela has been a Registered provider through the state since 2009. Angela shared that before she became a registered provider, she provided childcare as an unregistered provider since 1993. She is not a participant of the IQ4K quality rating system. She does participate in the Food Program. Angela shared that she is willing to care for children from the age of infant until about 4 when they typically attend preschool. Angela provides care on what I would refer to as he main level. That level is split but she does not provide care in a basement or upper level. Angela does have a dog, and she noted that the dog does interact with the childcare children. Angela has a good size back yard that is fenced. She has play structures for the children. The yard was well maintained. Angela's son is an approved assistant.

2. Identify Observed Strengths Of The Program

CHILD CARE ANNUAL EVALUATION

Angela had 3 children in care on this date. The children were sitting at the table finishing breakfast. I did observe a healthy breakfast. Angela then read books to the children, and this worker observed the children involved in other play (looking at a book and coloring). The two preschool aged children were talkative with this worker, and I observed them to appear quite comfortable in the childcare.

Angela has a variety of toys and activities for the children. She takes the children to the library regularly in the summer and they go on walks and do things outside of the childcare home several days per week.

Angela's documentation was nicely organized into individual files. Her policies/handbook was detailed and had more than the required minimum.

3. Identify The Aspects That Fall Below The Standard

110.9(1)b Provider
two hours of approved child abuse and neglect mandatory reporter training
Angela's training had expired.
*Angela needs to obtain an updated MCART certificate and send pictorial verification to HHS.
On this same date Angela did complete this training and sent pictorial verification to this worker.

A re-check is not needed at this time. The above corrections should be made within 3 weeks (by 6/25/26) and will be reviewed at the next annual compliance check.
As of 6/4/26 Angela has already completed her MCART training and has sent verification. Nothing further is needed.

If you have questions, you may contact me at 319-429-0749 or via email at christy.weber@hhs.iowa.gov

Thank you for your service in providing childcare in your community.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

NA

5. Special Notes/recommendations

Notes:
Angela shared that she does not transport the childcare children.
Angela shared that she does not ever use a swimming pool but will use a water table or sprinkler for other water play.
We did discuss safe sleep policies.
We did discuss the number of children she is allowed to care for at one time as a Category B provider.

As part of the 2026 Targeted compliance, the Emergency Preparedness Plan was thoroughly reviewed. Angela was in compliance with her EPP.
She was encouraged to review it at least yearly to ensure that no changes need to be made.

Recommendations:
As of 7/1/25 providers are expected to notify all parents in writing that the state does allow parents to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. We did discuss this and Angela did already have this documented in her handbook.
