Findings:

An annual compliance check was completed on 6/10/25 and the following was out of compliance:

441 IAC 110.8(1)“h” The home shall have at least one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway.

Rebecca did not have a smoke detector in the bedroom on the main level where one child naps.

441 IAC 110.9(4) Children’s Files. An individual file for each child shall be maintained and updated annually or when the provider becomes aware of changes.

Rebecca had all of the appropriate forms in each child's file but they had not been updated annually.

Suggestions/Recommendations:

A re-check is not needed at this time. Corrections need to be made by 7/2/25 and will be reviewed at the next annual compliance check. Please send pictorial verification of the items where specifically noted below.

I encourage you to work with Alicia Wagner with Child Care Resource and Referral if you have any ongoing compliance or training needs.

Alicia can be reached at 319-538-8464.

Thank you for your service in providing childcare in your community.

Corrective Action Required:

Rebecca needs to install a smoke detector in the bedroom on the main level of the home where a child naps. Rebecca needs to send pictorial verification to this worker.

Rebecca needs to ensure that the parents review each child's paperwork/file annually and sign and date annually. These do not need to be sent but will be reviewed again next year.
