CHILD CARE ANNUAL EVALUATION

1. Basic Overview

I conducted a compliance visit with Registered Child Development Home Category B provider Meghann Solis on 9/23/2026. Meghann has been involved in child care for 19 years. She continues using the main floor only of her 2 story home located on the edge of town. Meghann's primary space includes the open kitchen/dining room/living room and offer lots of space for the children. She had 8 children present during the time of our visit and cares for a total of 12 at this time. Meghann has no HHS-approved substitutes and has one HHS-approved assistant. Meghann has a fenced section of her back yard for an outside play area. She has 3 cats and 3 dogs, all with current vet checks on file. Meghann just renewed her registration and is good through 8/31/2028.

2. Identify Observed Strengths Of The Program

Meghann is conscientious in her approach to child care and does an excellent job in keeping her compliance items up to date. She is an IQ4K Level 3 provider, showing her dedication to quality in her operation. Meghann described her strengths as lots of experience that has prepared her to give professional care to the children. She continues her education in order to the kids the newest and best ideas in child care. Meghann has a young group of children at this time and does not have a very formal or structured curriculum at this time. They have daily circle time, lots of reading and learning activities. The children have regular outside time whenever weather allows. Meghann participates in the Food Program to enhance the nutrition of her snacks and meals.
