CHILD CARE ANNUAL EVALUATION

Jalayne will implement the practice when she has children 12 months or younger in her care. Jalayne uses Time Out and redirection as her primary behavioral interventions when needed. Corporal punishment is not practiced in the Child Development Home. Children in Caitlyn's care will receive regular meals and snacks as appropriate. Jalayne participates with the Food Program. The home has dedicated spaces which are furnished with children's furniture, toys, books, and cribs. There are toys and objects which encourage children to develop large and small motor skills. The providers follow a structured routine which children can predict their environment and activities. The children have group activities, free-play, and access to media. There are outside areas children can access when the weather allows. Jalayne's provider file and individual child's files are complete, organized, and easily accessible.
