CHILD CARE ANNUAL EVALUATION

1. Basic Overview

A compliance visit was conducted on 11/3/25 in Eileen's category B child development home. Eileen had one child in care at the time of the visit. She reports she typically has two and then before/after school aged children. She is allowed 8 full time children and an additional 4 before/after school for two hours but chooses to keep her numbers low at this time. She has been providing care for 37 years with 25+ years registered with the state. She provides care between 7:30-5 M-F. She does not accept CCA or participate in the food program. She reports that she has scheduled meals and rest time, but otherwise the children learn through play. Eileen reports they spend a lot of time outside when weather permits.

2. Identify Observed Strengths Of The Program

Eileen has a wealth of experience with children. She is organized as evidenced by her files. Her interactions with the one child was appropriate and he responded well to her.

3. Identify The Aspects That Fall Below The Standard

110.8 : Conditions in the home shall be safe, sanitary, and free from hazards.
Eileen needs to move cleaners out from under her sinks or put child locks on the cupboard doors.

110.8 (1) h : Has a minimum of one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway.
Eileen needs to install a smoke detector at the top of the stairs.

110.8 (4) a : Emergency and disaster plans for fire and tornado are written and posted by primary and secondary exits. The plans shall clearly map building evacuation routes in case of fire, a safe place indoors in case of tornado, and flood shelter areas.
Eileen needs to post her emergency and disaster plans.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

At todays visit we discussed safe sleep and discipline policies in place.

Thank you for the service you provide to your community!
