Findings:

An annual compliance check was completed on 3/4/25 and the following was out of compliance:

441 IAC 110.8(1)“a” The home shall have a nonpay, working land-line or mobile telephone with emergency numbers posted for police, fire, ambulance, and the poison information center. The number for each child’s parent, for a responsible person who can be reached when the parent cannot, and for the child’s physician shall be written on paper and readily accessible by the telephone. The home must prominently display all emergency information, and all travel vehicles must have a paper copy of emergency parent contact information.

Lori did not have her emergency numbers for fire, ambulance, poison and ambulance posted. She did post that while I was present.

Lori needs to update her written list of kids, parent contact, emergency contact and physician.

441 IAC 110.8(1)“h” The home shall have at least one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway. Each smoke detector shall be installed according to manufacturer’s recommendations. The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes.

Lori did not have documentation of monthly testing of smoke detectors.

441 IAC 110.8(1)“n” Providers shall inform parents of the presence of any pet in the home.
Each dog or cat in the household shall undergo an annual health examination by a licensed veterinarian. Acceptable veterinary examinations shall be documented on Form 470-5153, Veterinary Health Certificate. This examination shall verify that the animal’s routine immunizations, particularly rabies, are current and that the animal shows no evidence of endoparasites (roundworms, hookworms, whipworms) and ectoparasites (fleas, mites, ticks, lice).

The dog had an annual exam but it was not on the approved HHS form.

The cat was missing an annual/updated pet exam.

441 IAC 110.9(1)“b” (1) I-PoWeR records or certificates verifying required training completion:
Prior to registration:
minimum health and safety training, approved by the Department, in required content areas
Iowa’s Mandatory Child Abuse Reporter Training

Lori's Mandatory Child Abuse Reporter training had expired.

441 IAC 110.9(4) Children’s Files. An individual file for each child shall be maintained and updated annually or when the provider becomes aware of changes. The file shall contain:
Identifying information including, at a minimum, the child’s name, birth date, parent’s name, address, telephone number, special needs of the child, and the parent’s work address and telephone number.
Emergency information including, at a minimum, where the parent can be reached, the name, street address, city and telephone number of the child’s regular source of health care, and the name, telephone number, and relationship to the child of another adult available in case of emergency.
A signed medical consent from the parent authorizing emergency treatment.
Documentation list that is signed by the parent and names persons authorized to pick up the child. The authorization shall include the name, telephone number, and relationship of the authorized person to the child.
Written permission from the parent for the child to attend activities away from the child development home.

Lori was missing the bulk of information that is required in a child's file, for one child.

Suggestions/Recommendations:

A re-check is not needed at this time. Corrections need to be made by 3/25/25 and will be reviewed at the next annual compliance check.

I encourage you to work with Rachel Bonefas with Child Care Resource and Referral if you have any ongoing compliance or training needs.

Rachel can be reached at 563-362-8225

Thank you for your service in providing childcare in your community.

Corrective Action Required:

Lori needed to post her emergency numbers for fire, ambulance, poison and ambulance. She did post that while I was present.
Lori needs to update her written list of kids, parent contact, emergency contact and physician.

Lori needs to ensure that she tests her smoke detectors monthly and documents those accordingly.

Lori needs to obtain pet exams for the pets on the approved HHS forms.

Lori needs to update her Mandatory Child Abuse Reporter training. She did complete this on this date (3/4/25) and sent pictorial verification to this worker.

Lori needs to work with the parent to obtain all required documentation for the children's files. (only one child was missing information)

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Please do not hesitate to contact me at DHS at 319-429-0749 or christy.weber@hhs.iowa.gov if you have any questions regarding this letter.

Sincerely,

Christine Weber
