Program Population Served:

- [ ] Infant(0<24 mos)
- [X] Toddler
- [X] PreSchool
- [X] School Age
- [ ] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Sprouts Preschool and Daycare is run by mother and daughter team Kim McDonald and Abbi Grace. This is a Category C2 home that can provide services to up to 16 children. Kim McDonald has been providing childcare services for over 40 years. Abbi Grace has an Iowa teaching license with endorsements in reading and early childhood. Abbi taught preschool from 2014 to 2021 before joining her mother and expanding Sprouts availability for children's services. The program uses Brightwheel software for their program. They also work with the food program and follow guidelines for healthy meals and snacks. When compliance staff arrived to visit, there were 3 children in care. The provider reported that they had some children out due to illness. The program enrolls children when they are 2 1/2 to 3 yrs or toilet trained. They provide a day of free play and child led activities mixed with a few specific activities. The provider reported that they are working on learning the letters for some of the names of the children in care. They have a board with press buttons that will say and spell the child's name. They have the child's name on the board and magnet letters all over the board for the children to recognize the letters and how to place them together to spell their name.

2. Identify Observed Strengths Of The Program

Compliance staff observed the provider with the children. The provider spoke with all of the children and each approached her with ease. The second provider did arrive during the visit to get the van to do pick ups from preschool. Both providers are approachable and have great relationships with the children in care.

The childcare has a wide variety of outdoor activity centers for the children. This includes the ability for at least one of the providers to take children on a nature walk of the property. The outdoor area also has a mud kitchen for the children to play in.

3. Identify The Aspects That Fall Below The Standard

110.9 (4) e : For infants and preschoolers: A statement of health signed by a physician submitted annually.

**Looking through child files, one file is in need of an updated physical.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

2026 targeted compliance measure: Emergency Preparedness Plan. The provider has a completed EP plan that identifies planned actions for evacuation, shelter in place, lockdown, communication and reunification. The plan also addresses continuity of care in the event of a disaster at the location of the childcare.
