I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An unannounced licensing visit was completed May 23, 2024 . The Director was present throughout the visit.

Crayon Corner Learning Center has been in operation for many years, providing child care in the current location since June 2010. The center is located in a single standing building. The center provides child care services to children ages infancy through school age. The center offers before and after school care for school age children as well as summer programming for school age children. During the school year, the center offers Preschool with a morning session M-F from 8:30 am to 11:15 am for three year old children and an afternoon session from 12:30 pm to 3:15 pm for four and five year old children.

Amber Gebel is Director for the center. Amber has worked at this center for the past nine years and meets qualifications for this position. Megan Weber is the assistant director; she has resumed this role after previously holding the same position. She has prior experience as an assistant director along with prior child care experience. She meets qualifications for this role.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, nutritional practices, health and safety practices, playground observation, field trip and transportation practices, and administrative review.

Room observations/Activities: The center works with the school district to provide the SWVPP program, this will start the fall for three and four year old children. The center utilizes creative curriculum and the procare application to communicate with families. Rooms are in ratio. Staff were observed to maintain good structure in the rooms while also providing nurturing responses. Classrooms offer a variety of age/developmentally appropriate play centers and toys. Handwashing signs are posted and good handwashing technique was utilized. The center uses bleach, and soapy water for cleaning/sanitation.

Nutrition Practices: There is an onsite kitchen and dedicated staff. The center is enrolled in the CACFP food program and as such menus are inline with CACFP requirements. The cook and director craft menus, which rotate seasonally. Meals/snacks are served family style in the classroom. Menus were posted in the the kitchen, which was very clean and nicely organized.

Health/safety: Medication is stored securely and the director/AD administers when necessary. All rooms had first aid kits. Tornado and Fire emergency plans and diagrams were posted; drills were documented to have been completed monthly. Radon testing was completed in 2022; HVAC is inspected professionally twice yearly; last being 4/24/24. Carbon monoxide detectors are located in the hallway.

Playground: Playground safety checks have been completed as required; The playground is enclosed with chain link an offers play equipment and shade structures. Surfacing is grass and rubber chips. The playground appears in good repair.

Transportation/Field Trips: NA

Administrative Review: fliers for mandatory reporter; Handbook, consultant contact, license, emergency exit plans and non-smoking signs were all posted. All staff and child files that were reviewed contained all required information.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

This building was constructed specifically for a daycare center.

The center has a strong relationship with the Gladbrook - Reinbeck School District.

The center has spacious outdoor playground areas. They received a grant to put up three shade structures; which were installed in 2023.

The staff work well together and are dedicated to the center. The staff do themes each week in the classrooms with the children. The staff are open and receptive to changes and are interested in obtaining training on child care and child development.

The center receives strong support from the Board of Directors.

The center has strong community support.

The center participates in the food program.

There are security cameras in the classrooms and outside.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

There were no aspects of operation identified that fall below standards reviewed.

V. SPECIAL NOTES/RECOMMENDATIONS:

The center participates in the food program and their menus reflect they are following the CACFP guidelines.

Radon testing is now required every five years if testing is under the 4.0 cutoff. The center last conducted radon testing in April of 2022 and all rooms tested fell below the 4.0 cutoff.

The center has geo-thermal heat and this is inspected every fall.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
