CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Tanesha Thompson is a CDH Category C1 provider, living in Des Moines. She has been a registered daycare provider since 2014. Tanesha lives in a one story house but only uses the main floor area for her child care operation.

2. Identify Observed Strengths Of The Program

Tanesha Thompson was organized for our compliance check. 2 children were present at the time of my visit, both 4 years old. Tanesha said the daycare children play in the front yard, which is fenced in. They also go to the neighborhood park. Tanesha uses timeouts for discipline. She said the daycare children enjoy playing games, playing with toys, do learning games and arts and crafts. Tanesha does not have any infants enrolled. We reviewed all safe sleep regulations. Tanesha has pack and plays for infants.

3. Identify The Aspects That Fall Below The Standard

110.9 (4) d : For infants and preschoolers: An admission physical examination, on the first day of attendance, including past health history, status of present health, allergies and restrictive conditions, and recommendations for continued care when necessary. The date of the exam is not more than 12 months before the child's first day of attendance.
For school-aged children: On the first day of attendance, a statement of health status signed by the parent or legal guardian or admission physical examination that is not more than 12 months from the child's first day.
110.9 (4) e : For infants and preschoolers: A statement of health signed by a physician submitted annually.
For school aged children: An annual statement of health condition signed by the parent or legal guardian, annually from date of statement of health or admission physical.
110.9 (4) f : For each school-age child, record of a physical exam completed at the time of school enrollment or since.
