	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Heidi Hungate **Date:** 04-25-2023

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An unannounced off year visit was completed at this center on 4/17/23. The center director, Barb Maiers, was present along with other staff. This center is non-profit and is governed by a voluntary board. The center operates in a one level building. This center provides care to children age six weeks to 12 years. The center provides before and after school and non-school day care for school aged children as well. The center no longer participates in the Iowa Voluntary Preschool Grant program.

Program rooms include an adequate supply of books, games, puzzles, toys, arts/crafts supplies, and blocks. The center has an area for a teacher's "library" where a large supply of books and materials are organized by topic for staff to use in lesson planning for the various program rooms. The center director states the book supply is also cataloged. All program rooms and the lunch room include adjacent restroom areas. Some restroom areas are shared between rooms. Some program rooms also include sinks used for hand washing within the rooms as well. The nursery and toddler rooms include a diaper station and hand washing sink within the program room, and the toddler room also includes a diaper station inside of the adjacent restroom area. The nursery also includes a separated food/bottle preparation sink. All program space was observed.

The center serves breakfast, morning snack, lunch, and afternoon snack. The center does participate in the CACFP. Breakfast and snack are prepared on site by the cook, and lunch is brought in from the local hospital cafeteria and partially prepared on site. The kitchen area appears clean and is highly organized.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

The center director has been in this position since the center opened. She has overseen the center in its growth from a preschool only program to the large child care center it has become. She continues to be NAC certified. Some of the staff have been with the center for years. The staff appear to work well together. The staff were once again observed to be engaged with the children in activities. Photos and projects completed are on display throughout the center. The center continues at a four star QRS rating through 8/2023. The program participates in the local AEA program where materials can be borrowed to supplement program activities. The center director states that there are plans to repaint some of the classrooms. The center has new equipment installed in the toddler outdoor play area. Required documentation for licensing continues to be highly organized.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.10(3): Medications.
1. Medication authorizations missing the specific end dates for the period of authorization.
2. Medication present with expired authorization (12/2022).
3. Expired medication present (7/2022).
4. Prescription medication missing original pharmacy label as required.

V. SPECIAL NOTES/RECOMMENDATIONS:

1. Staff room freezer observed at 20F. Breast milk observed stored here. Ensure freezer maintains temperature of 0F or below.
2. Ensure staff travel to the vicinity of the restroom area(s) whenever children are there to ensure supervision of this area and proper hand washing procedures.

This center will continue with a full license. Please address the concerns noted in the report so that corrections are obvious and ensure that items remain in compliance. This report does not require a written response. Thank you.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
