Findings:

Per our 1/31/2024 spot check visit, the following corrections need to be made:

441 IAC 110.8(1)“n” Providers shall inform parents of the presence of any pet in the home.
Each dog or cat in the household shall undergo an annual health examination by a licensed veterinarian. Acceptable veterinary examinations shall be documented on Form 470-5153, Veterinary Health Certificate. This examination shall verify that the animal’s routine immunizations, particularly rabies, are current and that the animal shows no evidence of endoparasites (roundworms, hookworms, whipworms) and ectoparasites (fleas, mites, ticks, lice).

441 IAC 110.9(1)“b” (1) I-PoWeR records or certificates verifying required training completion:
Iowa’s Mandatory Child Abuse Reporter Training

441 IAC 110.9(1)“b”(2) Documentation from the department confirming the record checks required under 441 IAC 110.11(3) have been completed and authorizing or conditionally limiting the person’s involvement with child care.

441 IAC 110.9(4) Children’s Files. An individual file for each child shall be maintained and updated annually or when the provider becomes aware of changes. The file shall contain:
For children under the age of 6, a statement of health condition signed by a physician or designee submitted annually from the date of the admission physical. For a child who is enrolled in school, a statement of health status signed by the parent or legal guardian may be substituted for the physician statement.
A signed and dated immunization certificate provided by the state department of public health. For the school-age child, a copy of the most recent immunization record shall be acceptable.

Suggestions/Recommendations:

I encourage Traci to work with Tiffany Hagar from Child Care Resource and Referral with any ongoing compliance or training needs.
Tiffany can be reached at: (515) 573-0029

Corrective Action Required:

1. Traci's dog was seen by a vet within the past year, however, she was missing the completion of the State form I shared with her. This needs to be completed and renewed by her vet each year.

2. Traci needs to renew her Mandatory Reporter training to have on file.

3. Traci's mother is in the process of moving into Traci's home for an indefinite period of time. Traci needs to apply with the Registration Unit and have her mother approved before she can be living in the home.

4. Traci was missing multiple physician signed statements of health and immunization forms in her kid's files. These need to be obtained from the parents and added to the files.

5. Traci was full but ok with numbers of children in care on the day of my spot check. However, we determined there are some random days each month when she might have over 8 children for more than 2 hours with no HHS-approved assistant. Traci needs to reduce the number of children in her care, obtain a HHS-approved assistant, or tighten the scheduling/enforcement of her multiple part-time children in order to remain within allowable numbers at all times.

Traci must remain within allowable numbers of children at all times. Traci needs to apply to add her mother to her household through the Registration Unit before she can formally move in. I will check the Kindertrack system on 2/29/2024 to be sure the application has been turned in.

The other corrections will need to be in place by 3/29/2024 and will be reviewed during her next visit. (The Registration will be confirming her renewal of the Mandatory Reporter training during her renewal later this spring.) No re-check is required at this time.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Please do not hesitate to contact me at DHS at (515) 291-0008 if you have any questions regarding this letter.

Sincerely,

Earl Crow
