Findings:

Safe Sleep

While discussing safe sleep the provider reported using a pack n play and a rocker for an infant. We discussed the options for products required for infants between 0-1 year of age. Provider has one pack n play that another infant was playing in during the visit. Provider reported having a second pack n play that is currently put away. The second infant was not in her care during the visit. Provider reported she will get the other pack n play for when both infants are in her care.

Child files

The children's files are in need of updated physicals. The provider had physicals for all children except one, but most of these physicals were from visits over 12 months ago. We discussed the types of forms that compliance staff are able to accept from the doctors office. Provider reported some difficulty at times with parents. We then discussed ways to get updated annual physicals for the kiddos in her care.

Suggestions/Recommendations:

A lot of discussion about the providers rules and regulations. As a newer provider, she has realized some things she does want to add to her current parent handbook and we discussed ways to ensure that parents are aware of the changes to her information.

Corrective Action Required:

Please do not hesitate to reach out for any help with your business.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration.
