The number for each child’s parent, for a responsible person who can be reached when the parent cannot, and for the child’s physician shall be written on paper and readily accessible by the telephone. Suggestions/Recommendations:

Brenda does have the number for each child’s parent, a responsible person who can be reached when the parent cannot, and the child’s physician written on paper and readily accessible by the telephone but it needs to be updated.

The fire extinguisher on the lower level was the right size but expired. The fire extinguisher on the main level was not the correct size. Brenda needs to obtain the appropriate size fire extinguishers for both of the child occupied floors. Please send pictorial documentation to this worker.

Brenda needs to test her smoke alarms monthly and document accordingly. This worker did provide her a form to use.

Brenda needs have her 24 year old son's physical on the approved form.

Brenda was missing a few items from the children's files including a signed medical consent authorizing emergency medical care for one child, the initial physical for two children, and the consent form authorizing who can pick up the child and the activity permission form for one child. She needs to work with the parents to obtain all the necessary documents to update her children's files.

Corrective Action Required:

A re-check is not needed at this time, corrections need to be made by 9/15/23 and will be reviewed at the next annual compliance check. Please send pictorial documentation of the fire extinguishers.

I encourage you to work with Ashley Cram from Child Care Resource and Referral with any ongoing compliance or training needs.

Ashley can be reached at (563) 362-8224.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration.
