I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

Pleasant Hill KinderCare opened in March 2005. The daycare is one of the many daycares owned and operated by the nationwide corporation KinderCare Education. The center provides child care services for children ages infancy through school age. The center has several classrooms in addition to a small indoor gym. This center provides childcare services to children ranging from infancy to school age. Jessica Gathercole is the director. She started as director in July 2021. Jessica was a registered in home provider for eighteen years prior to coming to KinderCare. Ashley Fees is the on site supervisor.

An unannounced visit was completed on today's date. All areas subject to HHS licensing rules were reviewed. Mandatory postings are in place at the center's entrance. Classroom schedules, lesson plans and menus are posted by room doorways. Classrooms are supplied with age appropriate furnishings and toys. Interest centers are in children's classrooms ages two and up.

Jessica and Ashley assisted with today's visit. There are two infant classrooms, two toddler classrooms, two 2's classrooms, one 2/3's classroom, one 3's classroom, one PreK classroom and one TK classroom, which has programming in the gym. Children were observed during lunch, during rest time, during child directed activities and during transition times.

The center provides breakfast, lunch and afternoon snack. Menus are on a four week rotation. Menus reviewed showed compliance with CACFP requirements. Lunch served today was chicken nuggets, mixed vegetables, mandarin oranges, wheat pita bread and milk.

The playgrounds have fencing. There is poured rubber for required surfacing material. The center completes monthly playground checklists.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

This center has NAEYC accreditation. KinderCare Corporation provides a lot of support to their centers by providing menus, lesson plans and curriculums for all classrooms. The classrooms are well furnished with age appropriate learning and play materials.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.6(6)c: Center repeats Iowa record checks at a minimum of every two years or when aware of additional child abuse or criminal history that occurs.
One staff needed an updated SING check. This was updated today.

109.10(1)a: Preschool (for children five years and younger not enrolled in school): Physical exam report submitted within 30 days of admission, was obtained no more than 12 months prior to admission, is signed by a licensed MD, DO, PA,

Chiropractor or ARNP, and contains health history; present health status including allergies, medications, and acute/chronic conditions; and recommendations for continued care if necessary.
There were several children that needed updated physicals.

109.10(1)b: School-age (for children five years and older and enrolled in school): Annual statement of health status signed by parent is submitted prior to admission, certifies that the child is free of communicable disease, and lists allergies, medications and acute/chronic conditions.
There were several school age children that needed an updated physical or annual statement of health.

The children's files needed current physicals or health statements was discussed. Management said they will give parents a deadline date to turn in current forms or children cannot return to care until forms are turned in.

V. SPECIAL NOTES/RECOMMENDATIONS:

The center has a full license.
