	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Kathy DeGeorge-Evans **Date:** 05-16-2025

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An unannounced licensing visit was made on 4-29-2025. The program is managed by New Opportunities and was given permission to open on 1/18/2021.The center serves children ages four weeks in age to around three years old. The center director is Tonya Weber. Tonya has a BA degree and a Master's degree. Tonya is also director of several other New Opportunities programs. Michelle Glick is the on-site supervisor, she has a BA degree in Child and Family Services and has past experience working in child care. I met with Michelle during my licensing visit. There are 31 children enrolled.

Observation of rooms:
This is a beautiful Head Start with four program rooms, the rooms look great and have a fun variety of age and developmentally appropriate toys and equipment. The center also uses a motor skill room located downstairs. The center uses Creative Curriculum and a new infant curriculum, each program room had lesson plans/activities. The children were observed during nap time. Staff were attentive to the needs of the children.
The daily sheets looked good. All teachers have or are working on their CDA's - not floater staff.
The program utilizes the Family Resource Center on a regular basis. AEA works with some children who attend the center. The program will bring in agencies for presentations to the children.

Nutrition:
Meals are prepared on-site. The center participates in the federal food program. Menus are posted, they are on a four week rotation. Proper food storage was observed.

Health and Safety:
Monthly fire and tornado drills are practiced and documented.
The center was following the proper procedure for sanitizing and disinfecting. Bleach/water is used for sanitizing and Oxivir is used for disinfecting.
Radon testing was conducted 11/22/22 - 11/28/22 and then in the lower level 3/3/23 - 3/7/23. The upper level radon levels were below the 4.0 cutoff, but the lower level had radon levels above the 4.0 cutoff. A radon mitigation system was installed. Michelle stated they will be re testing for radon. Please refer to your handbook for information on radon testing as the rules have been updated. Carbon monoxide detectors are built into the building.
A fuel burning inspection was completed on 2-10-2025.

Playground:
The center has a very nice fenced playground area. Monthly playground safety inspections are completed.

Transportation:
The center doesn't provide daily transportation services. Walking field trips are taken around the property. The program will also bring in agencies for presentations to children.

Administrative records:
Staff and Children's files were read and were in excellent order.
Staff meetings are held on a regular basis. Michelle Glick maintains daily contact with staff. Head Start provides training throughout the year.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Michelle Glick is very enthusiastic and proud of the program. Staff were very helpful, organized and attentive to the needs of the children. Many staff have worked with Head Start for several years.
The center participates in IQ4K level 2.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

V. SPECIAL NOTES/RECOMMENDATIONS:

A full license is recommended for 5-1-2023 to 5-1-2024.
Off year licensing visit 10-21-2024.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
