[ ] Non Registered Child Care Homes accepting CCA

Program Population Served:

[X] Infant(0<24 mos)

[X] Toddler

[X] PreSchool

[ ] School Age

[ ] All Ages

1. Basic Overview

Coralie shared that she has been a registered childcare provider since 1997. She previously participated in the PACES program and Child Net in the past. She is not a part of the current IQ4K quality rating system. She does participate in the Food program. Coralie shared that she is open to caring for children infant through Kindergarten. She does not typically care for school aged children but will occasionally care for a school-aged child if she has had that child in the past, has a sibling, and/or has an opening. Coralie primarily uses the main level of her home for childcare but does use a few bedrooms in the upper level for children to nap. She does have two separate stairwells from that upper level. Coralie does have a large outdoor space for the children. Her yard is fenced in, offers sun and shade and she has a slide, several play structures and riding toys for the children. Coralie does not have any pets. Coralie does not have an approved assistant or substitute.

CHILD CARE ANNUAL EVALUATION

2. Identify Observed Strengths Of The Program

Coralie had 7 children present on this date. She has 8 children enrolled. The children were outside playing when this worker arrived. Coralie does have a very nice outdoor play space for the children.

The children did later go inside, and this worker observed them to be involved in a variety of play inside as well. Coralie has a variety of toys and activities for the children. She reported that they read daily, and she descried that she tries to get outside at least once per day and offers other activities for large motor skills if they can't get outside.

Coralie's policies were nicely written, and she had more than the two required policies. She had folders for each child, so this worker was able to easily review her documentation while she continued to care for and interact with the children.

Coralie did have a baby napping, and she checked on the baby regularly. She also had a baby monitor. This worker observed her to follow safe sleep policies.

3. Identify The Aspects That Fall Below The Standard

Coralie was in full compliance with all mandated regulatory requirements of a Registered Child Development Home.

If you have questions, you may contact me at 319-429-0749 or via email at christy.weber@hhs.iowa.gov

Thank you for your service in providing childcare in your community.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

NA

5. Special Notes/recommendations

Notes:
Coralie shared that she does not transport the childcare children.
Coralie shared that she does not ever use a swimming pool but will use a water table for other water play.
We did discuss safe sleep policies.
We did discuss the number of children she is allowed to care for at one time as a Category C1 provider.

As part of the 2026 Targeted compliance the Emergency Preparedness Plan was thoroughly reviewed. Coralie was in compliance with her EPP.
She was encouraged to review it at least yearly to ensure that no changes need to be made.

Recommendations:
As of 7/1/25 providers are expected to notify all parents in writing that the state does allow parents to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. We did discuss this and provider agreed to get that documented accordingly.
