- [ ] School Age
- [X] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Gin Simpson has been providing in-home childcare for about 25 years. The provider has two assistant/substitutes on her registration who help out if she has an appointment. She did have a helper today that she needs to add to her registration. The provider reported that she is usually at her 8 children, but this date there was no school. When compliance staff arrived, some of the children were playing with toys and others were coloring at a table. The youngest children were placed down for a nap. The provider is ChildNet Certified.

2. Identify Observed Strengths Of The Program

The provider allows the children to lead play while they are in her care. She does have some structured activities at times, but mostly the children play with toys. They go outside every day to a large yard space to run around or play on the playground equipment.

The provider is available to the children to meet their needs as they approach her with ease to ask a question or to get help with something. The provider has a calming voice and the children follow her directions well. The structure and basic routine is evident with the way the children complete requested actions from the provider.

3. Identify The Aspects That Fall Below The Standard

Child files:

For school-aged children: On the first day of attendance, a statement of health status signed by the parent or legal guardian or admission physical examination that is not more than 12 months from the child's first day.
110.9 (4) g : A signed and dated immunization certificate provided by the state Department of Public Health.

**While looking through four child files, one of the files was missing a physical and immunization record. Please work with the family to receive the latest medical visit information for this child. We do accept a copy of the visit summary for the child from their last physical.

Helper:

Please submit a change application to add your helper to your registration. This can be completed online or you can contact the registration unit by email: crsacca@hhs.iowa.gov
to have a paper form mailed to you. Your helper will need to have a background check completed as part of this process. Within 6 months, she will need to have a physical on file and she will need to take mandatory reporter training.
Please have this update to your registration started by December 13, 2025 or you will not be able to use this helper until this is started.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

Compliance staff discussed safe sleep, emergency preparedness planning and shared legislative updates.
