Findings:

This worker arrived at the home on 6/12/23 around 8:25am to find 2 child care children on the main level with the provider as they were waiting for two additional children to arrive. Allison provides child care primarily on the lower level of her home but they were waiting for two additional children so were upstairs at that time. There were two additional children downstairs at the time but Allison does have monitors to provide supervision. The two children arrived shortly after this worker and we all proceeded to the lower level of the home. Allison was in compliance with her numbers and age ranges for category C.

A complete tour of the home was done and the following was noted:
- Allison did not have the cabinet latched that is under her kitchen sink. There were chemicals in that cupboard. The children do eat upstairs in the kitchen so that should be secured.

The outdoor area was observed with no hazards noted.

A full review of records noted some items needing updates:
- Allison did not have completed documentation of monthly testing of her smoke detectors.
- Allison did not have completed documentation of monthly fire and tornado drills.
-Allison's documentation for her pets were not dated within the past year and were not filled out fully.
- Allison's husband needs an updated physical and immunization record on the approved form. He needs this as a household member, as an assistant and as a substitute provider.

This worker reviewed children's files and the following was noted:
- Allison needs updated physicals for five of the children in her care.

Overall her files were organized and she is aware of the appropriate documentation she needs but as missing updated physicals.

Suggestions/Recommendations:

- Allison needs to secure the cabinet that is under her kitchen sink as there were chemicals in that cupboard. The children do eat upstairs in the kitchen so that should be secured.
- Allison needs to make sure she is testing her smoke detectors monthly and documenting accordingly.
- Allison needs to ensure she is doing her monthly fire and tornado drills and documenting accordingly.
-Allison needs to get updated documentation for her pets.
- Allison's husband needs an updated physical and immunization record on the approved form. He needs this as a household member, as an assistant and as a substitute provider.
- Allison needs updated physicals for five of the children in her care.

You may contact your local CCR&R for further assistance if needed.
