CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Teresa has been a registered child care provider in Scott County for 4 1/2 years now. Teresa provides care to children of all ages ranging from infant to school age. Teresa only provides first shift care. Teresa provides care primarily in her basement although does use the upstairs to sleep a child occasionally or to allow the older children to do other activities. Teresa recently had some water in the basement from storms, but this has dried and did not impact her ability to provide child care. Teresa has a more structured program during the school year which includes daily preschool lessons. During the summer months, Teresa reports they have more free play.

2. Identify Observed Strengths Of The Program

This worker notes Teresa's dedication to caring for children. Teresa talked about having one child with special needs in her care that often presents challenging behaviors. Teresa has diligently worked with the parent of the child to ensure consistency is occurring both at home and in child care. This open communication with the parent is assisting in allowing this child to continue in Teresa's care. Teresa herself believes one of her greatest strengths is the open communication system she has developed with the parents of children in her care. Teresa also reports she is creative and always doing arts and crafts projects with the kids.

3. Identify The Aspects That Fall Below The Standard

Each smoke detector is tested monthly, and a record is kept for inspection purposes.
Teresa could not locate her 2025 drill records.

All dogs and cats have annual examinations. Records of the exams are on file and must verify that routine immunizations are current and animal is free of endo and ecto parasites.
Form 470-5153, Pet Health Examination Veterinary Health Certificate, is on file.
Teresa needs updated pet exam for one dog.

Fire and tornado drills are practiced monthly and documentation kept on file for the current year and previous year.
