Licensing Consultant: Jana Drew **Date:** 02-10-2025

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

Visited center on 01-31-25 and spoke Kara Sawyer, onsite supervisor and director Kim Storey-Geisler. Ms Storey-Geisler has a four year early education degree and thirty nine years of experience in childcare and Ms Sawyer has eighteen years' experience in childcare. Story Time Preschool & Child Care Center is housed in a building that contains three primary program areas and an eating/activity area. The center provides childcare to children ages 2 years to school age Monday through Friday 7am to 5:30pm. Currently there are 36 children enrolled in the program. At the time of the visit there were 21 children present.

In the morning the 2 and 3's are combined and then at 9:00am the two year olds will go to their room, however, when they don't have a lot of two's so they keep the children combined. At the time of the visit they were using this room for play. This room tends to be an overflow room depending on the day. All the children's rooms had the following areas throughout for the children to explore and learn: science, house, art, puzzles, blocks, games, books, sand & water table and dramatic play. Children have access to bathrooms. Displayed throughout the room were numbers, pictures of children's families, children's artwork, and the alphabet. Good room arrangement with centers throughout the area. Sufficient amount of toys and equipment for the number of children. Daily schedule of activities was posted. Observed staff engage the children in conversations throughout the day, reading stories to the children, assisting children with various activities, on the floor playing with the children and remind the children about rules. Staff had good interaction with the children throughout the day. There was some cleaning products in reach of children and when brought up to staff's attention they put it away.

They are using the two year old room for play and children learn to potty train and have access to bathroom and changing table. During this visit observed the children participating in the following activities: lunch, free play (during this time children can explore the various centers throughout the room), stories read to the children and naptime. Daily schedule of activities was posted. Displayed throughout the room were colors, children's artwork and a picture schedule for the children. Sufficient amount of toys and equipment for the children. The center put in new doors and windows and added turf in some areas of the playground this past year. The program is closing for a professional development day on 02-07-25 so staff can get their annual trainings.

The center is a part of the preschool initiative program for 4 year old's. This school year Preschool is offered daily Monday thru Friday 8:30am to 1:30pm In the afternoon childcare is then provided for the preschool children or they are picked up by parents. When the for school ages are not in school they are also in this room before and after school. Creative Curriculum and Gold are used as curriculum.

Center Nutrition Activities Observed
Refrigerator is clean and kept at the appropriate temperature, however a thermometer is needed in the store room refrigerator. The kitchen area is sectioned off from the rest of the facility. Nutritious meals are prepared by staff in a small kitchen to where meals are prepared. The center follows the CACFP guidelines for nutrition. Menus were posted. Center participates in the CACFP program.

Center Health & Safety

Medication is stored in a lock box or out of reach of the children. Center follows proper guidelines for administering medication. Tables are sanitized prior to children eating. Observed good hand washing procedures by staff and children. First aid kit is sufficient to treat minor injuries. Fire/tornado drills are documented each month. Radon tests were in normal range. Annual heating inspection is complete. Center has a functioning carbon monoxide detector.

Center Playground. has a fenced-in playground area which is located next to the center. The playground has a playhouse, slides and climbing equipment. Shredded rubber cushioning is around all of the equipment. The playground has shade. Center has documentation of playground inspections. The program has put in some areas on the playground with turf due to grass not growing well. Center has not used the playground much for winter and would need to be cleaned up prior to usage when warm weather occurs.

Center Transportation Arrangements/Field Trips
Staff transport older children in vans from their other center in the area. The center has a newer van information into HHS licensing notebook. The center does transport children to and from a couple local schools. Parent permission forms are completed for children who leave the center for school or field trips.

All the required postings were visible. The center's discipline practices consist of talking to the children, PBIS (positive behavior support) and time out. Center has Emergency Preparedness plan.

Ms Kara stated goals are to havehire more staff, get on the IQ4K program, and the Playground Childcare App.

Strengths of the program is that has good core of staff who have good communication and relationship with the families. The program is apart of the preschool initiative program.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Center sends home to parents a monthly newsletter describing what the center is doing with each age group.

Center displays children's art work in the rooms.

Children's toys are at their level and accessible.

Positive interaction with the children.

Center has child size furniture throughout the room.

Part of the preschool initiative.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.9(1)e: All files contain documentation to indicate that ongoing staff training requirements are met, including current certifications in first aid/CPR and mandatory child abuse training.
Number not in compliance: 1

109.9(2)b: All files contain sufficient information and authorization to allow the center to secure emergency medical and dental services at any time child is in center’s care.
Number not in compliance for dental: 2
Information lacking: Information was missing.

109.10(1)a: Preschool (for children five years and younger not enrolled in school): Physical exam report submitted within 30 days of admission, was obtained no more than 12 months prior to admission, is signed by a licensed MD, DO, PA, Chiropractor or ARNP, and contains health history; present health status including allergies, medications, and acute/chronic conditions; and recommendations for continued care if necessary.
Number not in compliance: 3

109.11(3)a: Center shall ensure that: Facility and premises are sanitary, safe, and hazard free. Adequate indoor and outdoor space is provided. The outdoor area shall include safe play equipment and area of shade. Sufficient space provided for dining. Sufficient lighting shall be provided. Sufficient ventilation. Sufficient heating. sufficient cooling.

Sufficient bathroom and diapering facilities. Equipment, including kitchen appliances, are maintained so as not to result in burns, shock, or injury to children. Sanitation and safety procedures for the center are developed and implemented to reduce risk or injury or harm to children and reduce transmission of disease.
Program had cleaning products in reach of children. Staff did put them away, but is important to make sure that cleaning products are always out of reach of children.

V. SPECIAL NOTES/RECOMMENDATIONS:

It is recommended to continue working with CCRR for support. It is also recomennded to declutter in the preschool room.

Program will email consultant by 03-10-25 confirming that all aspects that fall below standards have been corrected.

A full license will remain in effect at this time.

At least one visit will be made to the center during the next year.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
