- [ ] Toddler
- [ ] PreSchool
- [ ] School Age
- [X] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Debora has been providing child care for over 20 years now and has been registered with the state of Iowa the entire time. Debora provides care to children newborn through school age and is available for all three shifts of care. Debora has preschool activities for children in the mornings and works on kindergarten readiness skills for children. Deborah maintains regular communication with the parents of children in care to provide consistency between home and child care environments. Debora sends pictures to parents regularly to help parents feel reassured their children are doing well in her care. Debora has regular music, dancing and singing and also teaches the children colors, shapes and words. Debora also has activities and games for older school children in attendance.

2. Identify Observed Strengths Of The Program

Debora believes her greatest strength in working with children is her ability to work with parents, her increased level of patience and her overall knowledge. Debora reports she understands that no two children are the same and often need different methods for managing behaviors. Debora stated that she often 'thinks outside of the box" which is helpful in working with both children and parents. Debora has been working hard on her child care environment, recently putting steps up to her egress window in the basement. Safety is big for Debora. Debora has cameras in place, a security system and alarms on all doors in an effort to prevent an emergency occurring. Deborah also speaks both English and some Spanish in her child development home which offers children some diversity.

3. Identify The Aspects That Fall Below The Standard

All accessible electrical outlets are safely capped or are tamper-resistant electrical outlets.
Nonsmoking signs are posted at every entrance of the home and in every vehicle used to transport children. Signs include telephone number for reporting complaints, and www.iowasmokefreeair.gov.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

Upon arrival, Debora had a few outlets and switches that did not have their faceplates on or safety caps in due to some updates in her basement. Debora texted pictures of outlets and switches before this worker returned. Nothing further needed for this.
Upon arrival, Debora needed no smoking signs for her vehicle. This worker provided signs to Debora and Debora sent photos to this worker before this worker returned to her home office. Nothing further needed for this area.

Debora is fully compliant at this time with rules and regulations.

5. Special Notes/recommendations

Targeted case compliance for Emergency Preparedness Plan completed. Update was made for evacuation location. Plan is current and up to date.
