Suggestions/Recommendations:

Kim did have the number for each child's parent, a responsible person who can be reached when the parent cannot, and the child's physician shall be written on paper and readily accessible by the telephone but it needs to be updated to include all of the children.

Kim needs to test her smoke detectors monthly and document that accordingly. This worker did provide her a form to use.

Kim needs updated pet exams for three of her animals. (She did report they are scheduled on 9/9/23)

Kim needs to practice her tornado drills monthly and document that accordingly. (she did have documentation of fire drills) This worker did provide her a form to use.

Kim needs an updated physical exam on the correct form and her husband needs an updated exam as well on the DHHS approved form.

Kim was missing some items from her children's files including 5 initial physicals and one immunization record. She needs to work with the parents to obtain all required documentation.

Kim does provide care in the lower level of her home. She does have the appropriate egress window and permanent steps leading up to it however it is currently blocked by a play house so not very accessible. This worker did ask her to re-arrange so the exit is accessible. By mid-day she had sent pictorial documentation of compliance.

Corrective Action Required:

A re-check is not needed at this time, corrections need to be made by 9/15/23 and will be reviewed at the next annual compliance check.

I encourage you to work with Ashley Cram from Child Care Resource and Referral with any ongoing compliance or training needs.
