1. Basic Overview

An annual compliance visit was conducted on 11/18/25 to Tiffany's "B" child development home. As a B she is allowed 8 full time children and 4 school aged children for 2 hrs or less without the need of an assistant. Tiffany was first registered in 2012 and continued to be registered for all but 3 years since that time. Tiffany is open from 5-5 M-F. She accepts state child care assistance. Tiffany describes her program as a learn through play program with scheduled food and nap times.

2. Identify Observed Strengths Of The Program

Tiffany is a experienced provider who has a small group of children that allows her more 1:1 time with each child. She reports that she keeps the children busy and changes out toys to keep them from getting bored. Tiffany has a large backyard with a large amount of play equipment. She takes the kids out daily to play when weather allows. Safe sleep was observed

during the compliance visit and she has a good understanding of safe sleep practice. Tiffany has a nice set up for her child care program. It was clean and organized.

3. Identify The Aspects That Fall Below The Standard

110.8 : Conditions in the home shall be safe, sanitary, and free from hazards.
** Tiffany needs to put child locks on her kitchen and bathroom cupboards or move cleaners from under them.
** There is an area where dry wall was removed due to an emergency leak. Tiffany reports it will be fixed this weekend or she will put up to keep children from having access to insulation.
110.8 (1) h : Has a minimum of one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway.
** Tiffany needs to install a smoke detector at the top of her basement stairs.
Nonsmoking signs are posted at every entrance of the home and in every vehicle used to transport children. Signs include telephone number for reporting complaints, and www.iowasmokefreeair.gov.
** Tiffany needs new signs to include the number and website on both her primary and secondary doors. We discussed calling Smoke Free Iowa or CCR&R to get correct signs.
110.8 (4) a : Emergency and disaster plans for fire and tornado are written and posted by primary and secondary exits.
** Secondary exit is needing the plan posted.
110.8 (4) b : Procedures are in place for:Evacuation to safely leave the facility,Relocation to a common, safe location after evacuation,Shelter-in-place to take immediate shelter where the child is when it is unsafe to leave that location due to the emergent issue,Lock down to protect children and providers from an external situation,Communication and reunification with families,Continuity of operations, andProcedures to address the needs of individual children, including those with functional or access needs.
** Tiffany recently moved and needs the new Emergency Preparedness Plan filled out.
Within six months of becoming registered, children 18 years of age or younger residing in the household must have:Admission physical exam report.Immunization certificate.For school age: Documentation of physical exam completed at time of school enrollment or since that time.
** One child is missing their physical, Tiffany reported they have an appointment on Monday to get it done.
110.9 (2) c : Certification of two hours of approved training relating to identification and reporting of child abuse within six months of employment.
** Assistant Mia needs to complete her MCART
110.9 (4) d : For infants and preschoolers: An admission physical examination, on the first day of attendance, including past health history, status of present health, allergies and restrictive conditions, and recommendations for continued care when necessary. The date of the exam is not more than 12 months before the child’s first day of attendance.
** One child is missing their physical

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

At todays compliance visit, we discussed safe sleep and discipline practices.
