Summer					0

1. Basic Overview

An unannounced licensing visit was made to Roosevelt Kids & Company on 1/26/26. The program is located in Roosevelt Elementary School in the gym. Before and after school care for preschool age children to fifth grade is provided. Full day programming is also offered on no school days and during the summer. On these days, the site programs are consolidated to fewer locations. Tim Kaczmarek is the on-site supervisor. He began working at this site in November 2022 and has been with Kids & Company since 2021. There are 65 children enrolled in the program. I met with Tim during my visit.

Observation of room:
The program is held in the gym/cafeteria. The children were having fun with a variety of activities including coloring, Legos, blocks, chess, and studying. They also had snack. The children all washed their hands prior to eating snack. Staff had excellent interactions with the children. They were positive and attentive to the needs of the children. The center had lesson plans/activities. The program teaches a curriculum called HERO - High expectations, Energy level, Routines, Organization, and to be fair and respectful. The program has a fun variety of age and developmentally appropriate toys and equipment. The program has a nice storage/office area.

Nutrition:
The school district provides breakfast, lunch, and an afternoon snack for all students during the school year. During the summer, the center utilizes the free food program through the school for breakfast and lunch, and the center provides the snack. On no-school days, the center provides the breakfast, the students bring their own lunch, and the center provides the snack. The center is not on the federal food program but follows CACFP guidelines. Menus were posted. The refrigerator and freezer had thermometers.

CHILD CARE CENTER ANNUAL EVALUATION

Health and safety:
The medication management procedures are followed when children are prescribed medication and the program has the medication log. Monthly Fire/tornado drills are practiced and documented. Since you are in a school the Department of Education is responsible for making sure radon testing is completed and DHHS child care licensing no longer tracks the radon testing. The last radon testing that they have record for is January 2019. The annual fuel burning inspection was completed and expires on 6/30/26. The center installed a Ring camera doorbell in January 2025. There was no toilet paper in one of the girls' stalls. Tim said the janitor is responsible for maintaining the bathrooms and they just needed to notify him. Staff need to make sure the children have adequate toileting materials.

Playground:
The center uses the school playground. Monthly playground inspections were completed.

Transportation:
The center doesn't provide daily transportation. When the center goes on field trips, a school bus is used.

Administrative records:
Staff files were read on a previous date and were in excellent order. Nine children's files were reviewed. The preschool age file that was read did not have a current physical. Please review children's files and have them updated with the required information as soon as possible.

2. Identify Observed Strengths of the program

Tim Kaczmarek was very helpful during my licensing visit. The center uses the Brightwheel child care app. Staff had excellent interactions with the children. They were positive and attentive to their needs. Molly meets with staff on a regular basis and ongoing staff training is provided.

3. Identify the aspects that fall below the standard

109.9(2)i: One of the preschool files was reviewed and they did not have a current physical on file.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/Recommendations

A full license is recommended for Roosevelt Kids & Company for 1/1/25 to 1/1/27.

Date: 01/29/2026
