Renee is available for care Monday through Friday 6:30am to 5:30pm. Renee does accept all ages of children in her program. There are 2 pet cats in the Child Development Home. Renee is able to provide transportation for families in her care. Renee has begun the process of getting certified IQ4K with Child Care Resource and Referral.

2. Identify Observed Strengths Of The Program

CHILD CARE ANNUAL EVALUATION

The home has dedicated spaces which are furnished with children's furniture, toys, books, and cribs. There are toys and objects which encourage children to develop large and small motor skills. The provider follows a structured routine which children can predict their environment and activities. The children have group activities, free-play, and access to media depending on the age of children in care. There is an outside area the children can access when the weather allows. Renee has completed her required trainings as reviewed by the Registration Unit. Renee has completed Safe Sleep training; this worker reviewed the policy with her and gave her an informational flyer. Renee will implement the practice when she has children 12 months or younger in her care. Renee uses Time Out and redirection as her primary behavioral interventions when needed. Corporal punishment is not practiced in the Child Development Home. Children in Renee's care will receive regular meals and snacks as appropriate. Renee participates with the Food Program. Renee's provider and child files are complete, organized, and easily accessible.
