- [ ] Toddler
- [ ] PreSchool
- [X] School Age
- [ ] All Ages

LICENSE CAPACITY	Infants	2 Years	Preschool	School-Aged	Capacity
General				60	60
Summer					0

1. Basic Overview

An unannounced licensing visit was completed at this center on 9/17/25. Staff files were reviewed at a separate visit on 10/1/25. Present was the approved on-site supervisor, Ashlyn Metz, and other staff. The executive director for the YMCA IMV child care programs is Lindsay Wadsager. Lindsay was not present for this visit. The center is one of many operated by the YMCA IMV. This particular site is located in the Grant Wood Elementary School. The program serves school-age children from this school only, before and after school during the school year on school days only.

The commons area and annex area- "think tank" area as staff referred to it at this visit (labeled as "conference room" on floor plan diagram, maximum of 11 children) are the primary licensed space for this center. The center is able to use the gym on occasion. The center director states either the gym or cafeteria would always be available for the program to use. The program uses a storage area down the hall from the commons area for their materials. Games, coloring/drawing materials, some toys, balls were observed. The children have to travel a short distance from the common area to use hallway restroom areas. The common area includes several hand washing sinks. All program space was observed. The staff state the children use both the upper and lower level outdoor play areas.

The center serves afternoon snack. Snack is provided by the YMCA IMV Davenport Early Learning Center site and brought here from there with the exception of milk which is provided by the school. The center does participate in the CACFP.

2. Identify Observed Strengths of the program

The program appears to be well managed, and the staff appear to work well together. This Kids Club site continues to report a positive partnership with the school. There is good support from the community for this program. Staff were once again observed to know the children well, and the children responded well to the staff. Staff were highly engaged in activities with the children. Staff work well together and communicate well.
regarding program activities. Program space is large, bright with windows, and the availability of sinks within the program space and vicinity of restroom areas is ideal at this location. Program materials are highly organized. Licensing documentation and staff and child files were found to be organized.

3. Identify the aspects that fall below the standard

109.9(2)a-c: All files contain sufficient information to allow the center to contact the parent or emergency contact at any time child is in center's care as well as who can pick up the child as authorized by the parent.

109.9(2)d: All files contain sufficient information and authorization to allow the center to secure emergency medical and

dental services at any time child is in center's care.

109.11(3)a: Center shall ensure that:Facility and premises are sanitary, safe, and hazard free.Sufficient lighting shall be provided.Sufficient ventilation.Sufficient heating.Sufficient cooling.Equipment placed in the program area is maintained so as not to result in injury to the children.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

109.9(2)a-c: All files contain sufficient information to allow the center to contact the parent or emergency contact at any time child is in center's care as well as who can pick up the child as authorized by the parent.
1. Emergency forms do not state consent for who can pick up the child from the center.

109.9(2)d: All files contain sufficient information and authorization to allow the center to secure emergency medical and dental services at any time child is in center's care.
1. Several children's files observed were missing the signature (and date) of the parent on the enrollment forms including for permission to seek emergency medical care.

109.10(7) First aid kit: The center shall ensure that a clearly labeled first aid kit that is sufficient to address minor injury or trauma is available and accessible to staff at all times when children are: ? In the center. ? In the outdoor play area. ? On field trips (away from the center.)
1. First aid kit missing eye pads and whistle.

109.11(3)a: Center shall ensure that:Facility and premises are sanitary, safe, and hazard free.
1. Several chemical cleaners/sprays accessible on a cart in the commons area.

5. Special Notes/Recommendations

1. Ensure that only staff answer/open the entry door for persons arriving at the center.
2. Licensing binder needs organization.

The center will continue with a full license. Please address the violation(s) and/or concern(s) noted in the report so that corrections are obvious and ensure that items remain in compliance. Thank you.

Date: 09/24/2025

HHS Licensing Consultant: Heidi Hungate

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Care License. Please take steps necessary to completely address each of the violations noted above.
