- [ ] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Angel Love has been providing childcare since 1987. She currently has seven children enrolled in care. There were four in her care today. This is a Category B registered child development home. The provider stated that she has a generic schedule for the childcare, but for the most part there is a lot of free play for the children in care. She reported that they get outside as much as they can. This childcare home is IQ4K rated and is also ChildNet certified. The provider has all of her files organized and ready for compliance staff to review.

2. Identify Observed Strengths Of The Program

Compliance staff observed the provider with the children. They were eating breakfast for lunch when compliance staff arrived. The children all had ample food and were given second helpings when they asked. One younger child has just been learning to drink from a cup. He was doing such a great job, he kept asking for more milk, just to keep drinking.

Compliance staff was able to observe the patience that the provider showed to the children. When a child did something that was not ok, the provider calmly spoke to him and was direct in her words to him.

The children were hoping to return to the outside after lunch, the provider stated they could if the rain had stopped. She reported that going outside before rest time works for her program.

The home has ample space and toys for the children to play with when they are indoors.

3. Identify The Aspects That Fall Below The Standard

Angel was in full compliance.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

The provider has a substitute listed on her registration that she has not used. This substitute does not have a physical on file. If you would like to remove this substitute from your registration you are able to do so by emailing the registration office. crsacca@hhs.iowa.gov Let them know you want to remove Synthia as a substitute.

Compliance staff reviewed the registration checklist with the provider. Compliance staff also discussed safe sleep, emergency preparedness planning and legislative updates that were new on July 1, 2025.
