- [ ] Non Registered Child Care Homes accepting CCA

Program Population Served:

- [ ] Infant(0<24 mos)
- [ ] Toddler
- [ ] PreSchool
- [ ] School Age
- [X] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Tonya Dillenburg has provided childcare services for 8 years. Prior to childcare she worked in the school system as a para-educator. There were three children in care at the time of the visit. The provider reported that most of her children in care are school aged. The group was going through toys at the time compliance staff arrived. Two of the children are related to the provider and they like helping to organize the home. The other child was watching a show. The provider reported her numbers fluctuate daily. She reported that they will find activities in the community to keep busy during the day. When the provider has younger children in care, they have toy options to keep busy. Now with the warmer weather they spend a lot of time outside. The provider will use two levels of her home at times. Care is mostly provided on the main floor of the home, but she may also use the lower level. The basement does have two egress window options for emergency exits.

2. Identify Observed Strengths Of The Program

The childcare is mostly for family members, but the provider has worked with other families.

The provider reports good relationships with all parents and children who come into her care. She likes to keep the children busy while they are in care.

3. Identify The Aspects That Fall Below The Standard

All dogs and cats have annual examinations. Records of the exams are on file and must verify that routine immunizations are current and animal is free of endo and ecto parasites. Form 470-5153, Pet Health Examination Veterinary Health Certificate, is on file.

**The provider reported that the pets were seen in 2025. The last signed forms in her paperwork were from 2024. If the provider locates the updated information or receives verification from the veterinary office, please send pictures of the forms to 712-435-0576. Pet forms do need to be updated annually, if the pets are not up to date with their physical or shots, please have them seen and send pictures of the completed forms by August 16, 2026.

For school aged children: An annual statement of health condition signed by the parent or legal guardian, annually from date of statement of health or admission physical.

**One of the three files observed by compliance did not have an updated annual parent statement. Compliance will email a form for the provider to have parents sign annually for school aged children who are in care. Files will be reviewed at your next compliance visit.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

2026 targeted compliance measure: Emergency Preparedness Plan. The provider has a completed EP plan that identifies planned actions for evacuation, shelter in place, lockdown, communication and reunification. The plan also addresses continuity of care in the event of a disaster at the location of the childcare.
