Findings:

This worker arrived at the home on 6/9/23 around 8:15am to find 3 child care children present. Tammy reported that she usually has six children in care. She was in in compliance with her numbers and age ranges for category A.

A complete tour of the home was done with no visual safety concerns.

The outdoor area was observed with no hazards noted.

A full review of records noted some items needing updates:
-Tammy did not have a paper copy of emergency parent contact information in her vehicle she uses to transport.
- Tammy reported she does give medications at times (although rarely) but she has not used the medication log and keep record as is required.
- Tammy's physical exam was not on the approved and required DHHS form.
-Tammy's mother who is a household member did have a physical exam on the required form but it had expired. Tammy did share her mother is schedule to have her physical soon.
-Tammy's approved child abuse and neglect mandatory reporter training was expired.

This worker reviewed a few of the children's files and the following was noted:
- Tammy could not locate files for two of the children in her care on this date.
- Tammy was also missing an updated physical exam for one of the kids present today.
- This worker observed one file for a child not present today and she was also missing an updated physical exam for that child.

Along with the annual compliance check this worker also addressed a complaint with Tammy on this date and that discussion is documented accordingly on the complaint form. (She was not found to be out of compliance)

Suggestions/Recommendations:

-Tammy needs to have a paper copy of emergency parent contact information in her vehicle she uses to transport.

-Tammy's mother who is a household member needs to get an updated physical exam on the DHHS approved form.
-Tammy's needs to update her child abuse and neglect mandatory reporter training .
- Tammy needs to locate the files for two of the children in her care.
