- [ ] Non Registered Child Care Homes accepting CCA

Program Population Served:

- [ ] Infant(0<24 mos)
- [ ] Toddler
- [ ] PreSchool
- [ ] School Age
- [X] All Ages

1. Basic Overview

Jamie shared that she began providing childcare in 2009 but was not involved with the state compliance at that time. She noted she was off and on for years in providing care. Jamie then became a Registered childcare provider in 2024. Jamie does not currently participate in the IQ4K quality rating system but did express some interest in learning more about that. It is not a requirement. Jamie does participate in the Food Program. Jamie only uses the main level of her home for childcare. She does have a backyard but also has a park directly next to her home for outdoor play as well. Jamie does have 4 dogs. They were not interacting with the childcare children on this date, but Jamie did share they do interact with the kids at times. Jamie does have three individuals approved as assistants.

2. Identify Observed Strengths Of The Program

CHILD CARE ANNUAL EVALUATION

This worker did observe Jamie to appropriate redirect the children at times while I was present. Her husband was also home today, and he is an approved assistant. He was also observed to have appropriate interactions with the children.

Jamie shared that she does value outdoor time with the children and identified activities for large motor skills if they are inside. She does have appropriate toys/items for indoor play as well and this worker observed the children to be engaged in free play while I was present.

Jamie's required documentation was all organized into a binder with individual folders/sleeves for the children and other required documentation. This allowed this worker to easily review her documentation while she was able t continue to supervise and care for the children.

Jamie's policies were nicely written and detailed and she has much more than the required minimum. Her Emergency Preparedness Plan was also detailed, and she had a tote with emergency items in her basement.

Jamie did ask good questions while this worker was present.

3. Identify The Aspects That Fall Below The Standard

110.8 (1) h : Has a minimum of one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway.
Jamie did not have a smoke detector at the top of the stairway going to the upstairs level.
*Jamie needs to install a smoke detector at the top of the stairway and send pictorial verification of compliance to HHS.
Jamie already sent verification of compliance on this dame date.

A re-check is not needed at this time. The above corrections should be made within 3 weeks (by 5/22/26) and will be reviewed at the next annual compliance check.
As noted above Jamie has already corrected that item and is now in full compliance.

If you have questions, you may contact me at 319-429-0749 or via email at christy.weber@hhs.iowa.gov

Thank you for your service in providing childcare in your community.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

NA

5. Special Notes/recommendations

Notes:
Jamie shared that she might occasionally transport the childcare children.
Jamie did not have a pool up on this date but did share she does have an above ground pool and showed this worker where it would be located. That area is completely fenced, and she has a secure lock on the door that leads outside to that area. We did discuss pool safety.
We did discuss safe sleep policies.
We did discuss the number of children she is allowed to care for at one time as a Category B provider.
We also discussed if Jamie might be interested in participating in the IQ4K quality rating system and the CCR&R worker/supervisor who was present at this visit today agreed to connect with Jamie with an individual who can provide her additional information for consideration. This is not anything that is required.
Jamie shared that she does utilize the Brightwheel program for Childcare Business Management.

As of 7/1/25 providers are required to have something in writing notifying parents that in lieu of an immunization record, they are allowed to submit an exemption of immunizations (either religious or medical). Jamie did already have something documented to that effect.

As part of the 2026 Targeted compliance the Emergency Preparedness Plan was thoroughly reviewed. Jamie was in compliance with her EPP and it was detailed.

CHILD CARE ANNUAL EVALUATION

She was encouraged to review it at least yearly to ensure that no changes need to be made.

HHS Child Development
Home Compliance Worker: Christine Weber Date: 5/1/2026

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Child Care Resource and Referral is an excellent resource for providers to access training options and support in your area. You can reach Child Care Resource and Referral at I encourage you to work with Terri Orr with Child Care Resource and Referral if you have any ongoing compliance or training needs. Terri Orr can be reached at 319-433-7750
