Dear Child Care Provider:

This letter is in regards to the pre-inspection visit at your residence in which you are seeking child development home registration conducted on 04/22/2024. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. You are not a participant in the voluntary Quality Rating and Improvement System. The following areas were out of compliance at the time of the visit:

441 IAC 110.8(1)	**Facility Requirements**
441 IAC 110.8(1)"e"	Annual laboratory analysis of a private water supply shall be conducted to show satisfactory bacteriological quality. When children under the age of two are to be cared for, the analysis shall include a nitrate analysis. When private water supplies are determined unsuitable for drinking, commercially bottled water or water treated through a process approved by the health department or designee shall be provided.
441 IAC 110.8(1)"h"	The home shall have at least one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway. Each smoke detector shall be installed according to manufacturer's recommendations. The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes
441 IAC 110.9	Files
441 IAC 110.9(1)	**A provider file is maintained and shall contain the following:**
441 IAC 110.9(1)"a"	A physician's examination report for the provider and all members of the provider's household aged 18 years or older. Acceptable physical examinations shall be documented on Form 470-5152, Child Care Provider Physical Examination Report. All children residing in the household must have medical documentation outlined in 110.9(4) "d", 110.9(4) "f", and 110.9(4) "g"

Findings:

441 IAC 110.8(1)e. Private water sample.
441 IAC 110.8(1)h. Smoke detectors.
441 IAC 110.9(1)a. Household physicals.

Suggestions/Recommendations:

I encourage you to work with Child Care Resource and Referral for ongoing child care needs.

If you decide to use the upstairs for child care, smoke detectors are needed in each child occupied room and a 2A10BC rated fire extinguisher is needed for that level of the home.

Corrective Action Required:

Faith did not have completed water test results at the time of the visit. Faith texted completed water sample results showing safe water later in the day.
Faith needs a smoke detector installed at the top of her basement stairwell.
Faith needs a physical for her husband Timothy documented on HHS form 470-5152, Child Care Provider Physical Examination Report.
Faith needs physicals signed or electronically signed by dr. for both of her children.

Faith needs to send completed items to Kathy by 5/10/2024. Items can be emailed to kathy.huinker@hhs.iowa.gov or texted to 563-949-6971. Once all items are received, Faith's pre inspection referral will be approved.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Please do not hesitate to contact me at DHS at 563-949-6971 or kathy.huinker@hhs.iowa.gov if you have any questions regarding this letter.

Sincerely,

Kathy Huinker
