Dear Child Care Provider:

This letter is in regards to the pre-inspection visit at your residence in which you are seeking child development home registration conducted on 05/02/2024. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. You are not a participant in the voluntary Quality Rating and Improvement System. The following areas were out of compliance at the time of the visit:

441 IAC 110.8(1)"g"	The home shall have at least one 2A 10BC rated fire extinguisher located in a visible and readily accessible place on each child-occupied floor.
441 IAC 110.8(1)"h"	The home shall have at least one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway. Each smoke detector shall be installed according to manufacturer's recommendations. The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes
441 IAC 110.8(4)	**Emergency Plans**
441 IAC 110.8(4)	Emergency Plans: plans in case of man-made or natural disaster shall be written and posted by the primary and secondary exits. The plans shall clearly map building evacuation routes and tornado and flood shelter areas.

441 IAC 110.9(1)"a"	A physician's examination report for the provider and all members of the provider's household aged 18 years or older. Acceptable physical examinations shall be documented on Form 470-5152, Child Care Provider Physical Examination Report. Findings:

441 IAC 110.8(1)“g” The home shall have at least one 2A 10BC rated fire extinguisher located in a visible and readily accessible place on each child-occupied floor.

Provider has only a 1A-10BC rated fire extinguisher in the home.

The provider is missing smoke detectors in some child occupied rooms.

441 IAC 110.8(4) Emergency Plans: plans in case of man-made or natural disaster shall be written and posted by the primary and secondary exits. The plans shall clearly map building evacuation routes and tornado and flood shelter areas.

Emergency disaster plans for fire and tornado need to be posted by all exits of the home.
