Corrective Action Required:

The sanitary conditions were addressed at the current visit through conversation and preplanning for any future issues.

In regards to the monthly documentation of smoke detector checks and drill practice, please start with October 2024 and document somewhere convenient for you when you complete these items. This will be observed at your next compliance visit.

In regards to storage of medicine boxes, you will need to relocate these items from the kitchen counters and find a secure location that is not in reach of the children in your care. This will be observed at your next compliance visit.

In regards to the children's files that were missing information, please work with families to have these files updated by November 30th, 2024. These files will be reviewed at your next compliance visit.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.
