N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An unannounced full-licensing visit was completed 11-1-24. Sharyl Kraususki, director was present for the entirety of the visit.

Child's view Daycare is owned by Kristin Rude was opened in 1998. Sharyl has been the on-site director since 2003. Both meet qualifications for their positions. Hours of operation are 6:30 am- 5:300 pm. They serve infants through school age children, up to 6th grade; usually the age of ten. The center has sole-occupancy of the building, which is a single story building.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, nutritional practices, health and safety practices, playground observation, field trip and transportation practices, and administrative review.

Room Observations/Activities: The centers lesson plans are pulled from Iowa Early Learning Standards. The center uses social media and text messaging to communicate with parents. The rooms were in ratio. Handwashing signs were posted in the rooms--with the exception of one room; which the director indicated would be replaced as soon as possible.. Handwashing techniques were not observed as the children were finishing up lunch and starting rest times. The changing tables were clean and sanitized. Rooms had a variety of age/developmentally appropriate centers/toys/activities. Rooms were nicely organized with Lesson plans posted. This center has a secure/coded entry. Staff were involved in activities with the children. Staff were responsive to the children and maintained structure in the rooms. This center has attained IQ4K level 1 for quality.

Nutrition Practices: This center has an on-site kitchen and dedicated kitchen staff. Menus are devised by the director and rotated about every four weeks. They are in-line with CACFP guidelines. The center offers AM/PM Snack and lunch. Lunch is prepared and served cafeteria style while staff join as well. Menus are posted by the classrooms, parent board and in the kitchen. This kitchen is very organized and clean.

Health and safety: Medications for the center are stored in an upper kitchen cabinet, inaccessible to children. First aid kits are accessible throughout the center. Emergency exit plans are posted. Tornado/Fire drills are documented having been completed monthly. Radon testing was completed 9/2022 and all rooms tested, tested below 4.0. HVAC is set to be inspected 11/5/24. There are carbon monoxide detectors on site as required.

Playground: This playground is enclosed by chain-link fencing. There are play structures provide a variety of opportunity for play. Safety surfacing is pour n play, with rubber pads and some cement. This playground is separated by fencing to keep smaller structures and larger structures from being accessible by younger children. There is a basketball hoop and ample area to use large motor skills. Playground safety checks are documented has completed monthly as required.

Transportation/Field Trips: This center has three buses, one bus capacity is 22 passenger and the other two van have a capacity of 13. The center offers transportation to and back from school. The buses are maintained by the owner and professional auto repair.

Administrative Review: Information for mandatory reporter, handbook accessibility, consultant contact, license, emergency exit plans and no-smoking signs are posted. Five child files were reviewed; with three missing annual updates which the director indicated were in the process of being updated. .Five employee files were reviewed and found to have all required information. This center has a well-established policy.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

The staff work well together and want to provide a quality program to the children; they are also a good support to each other. The center also has a full-time cook who is a strong asset to the center and has worked at the center for over 20 years as has the site director.

The owner continues to be very involved and invested in the center.

The staff work hard to ensure the children are ready for kindergarten. Three of the staff know sign language and teach this to the children as well.

The center maintains social media (Facebook) page.

The center has a secure entrance.

The owner and co-director work well together and work towards letting staff know they are valued.

The center recently replaced their surfacing with poured in place surfacing on the large playground area.

The staff have gone above and beyond, especially during the pandemic.

The center was able to take the children on field trips again this past summer, going to parks and an Iowa-Cubs game.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.9(2): All files are updated at least annually and when a change occurs.
The director indicated starting to review files for parents to complete annual updates.

V. SPECIAL NOTES/RECOMMENDATIONS:

Radon testing is due every two years. The last test was completed in September of 2022 and radon levels at that time were below the 4.0 cutoff.

The furnace is inspected every fall, and there is a inspection set for 11/5/24; the director will then provide the consultant with a receipt/certificate of inspection.

The menus reflect the center is following CACFP guidelines.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
