	REVOCATION of license

Licensing Consultant: Nate Knepper **Date:** 08-05-2024

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An off-year visit was conducted on 8/2/24. The owner/director was present throughout the visit.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, ratios, nutritional practices, health and safety practices, playground observation, field trip and transportation practices, and administrative review.

Kidz Corner is a center in Urbandale, IA that was given permission to open on 7/9/21. The center serves children six weeks in age to roughly 12 years in age using their own learning curriculum that is based off of several other learning curriculums. The center is open Monday - Friday, year-round. The center is also a drop-in center. Reservations at least 24 hours in advance are preferred to ensure there are openings/staffing, but not required. There are a total of five classrooms. Capacity for the infant room is 12 children. Capacity of the toddler room is 16 children. Capacity of the two year old classroom is 15 children. Capacity of the four/five year old classroom is 15 children. Capacity of the school-age classroom is 18 children. On the day of the visit, only three classrooms were in use.

The owner/director of this center is Tina Terrell. Tina has BA degree and past experience working in child care. The on-site supervisor is Anna Guede. Anna has past experience working in child care and has taken a number of professional development training courses to meet the requirements for on-site supervisor.

During the visit, children were observed napping in cribs, having tummy time, having a diaper changed, eating the AM snack, washing their hands, and engaged in free-choice play at the different learning stations set up in classrooms. Staff were attentive to children's needs and interacting with children in their activities.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

This is a newer center that meets a need in the community. Enrollment has again increased over the past year.

Drop-in services are available.

There is a "parents night out" one time a month where the center stays open later.

The owner/director is organized. Staff and child files were organized.

There are monthly staff meetings. The owner/director also has weekly one-on-ones with staff.

The center has their own website. There is also an online app for daily sheets, forms, payment, etc. (Child Pilot).

The center has a contract with Pizza Ranch for lunches (and dinners if the center one day goes back to extended hours).

There is a secure entrance into the center. Their are also security cameras now in classrooms.

The center looked and smelled clean throughout the building.

The owner stated her staff work well together.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.10(3)c: For ongoing, long term medications, authorization shall be obtained for a period not to exceed the duration of prescription.
There was one expired epipen observed.

109.11(3)a: Center shall ensure that: Facility and premises are sanitary, safe, and hazard free. Adequate indoor and outdoor space is provided. The outdoor area shall include safe play equipment and area of shade.
There was a bolt on the fence and a bolt on the gate that still need to be cut/capped so that no more than two threads are exposed. There appears to be a head entrapment in one area where the fence post is next to the building that will have to be repaired. There was one broken/rotten railroad tie along the border of climbing structure area.

109.15(1): Children at center two hours or longer shall be offered food of not less than two hours and no more than three hours apart unless child is asleep.
The menus will have to be adjusted some as discussed at the visit so that children are eating no less than two hours apart or more than three (unless napping).

V. SPECIAL NOTES/RECOMMENDATIONS:

Radon testing was last tested 5/27/22 - 5/30/22. Radon levels came back below the 4.0 cutoff. Because levels were below 4.0, the center can move to testing for radon at least every five years now. So long as radon levels remain below 4.0, they can remain on a five year plan. If at the next testing levels in any classroom come back 4.0 or higher, the center will have to have a mitigation plan, retest, and at least temporarily move back to testing every two years.

The annual inspection for fuel burning appliances was last conducted on 3/11/24. This is inspected two times a year.

The center takes walking field trips around the surrounding area. The center will also bring in different agencies for presentations to children.

IQ4K and I-Power were again discussed at the visit. The center should continue to upload professional development training and make sure all staff have I - Power accounts. The center has been in touch with CCR&R in regards to the IQ4K process.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.

VI. ADDENDUMS:

- Addendum1: Correction, the center does not have security cameras in classrooms, only the front entrance at this time.

This Addendum is approved by supervisor on 10/29/2024 4:07:49 PM
