1. Basic Overview

Tabbatha has been providing child care herself for 15 years as a registered child development home in Iowa. Tabbatha helped her mom in her child care for approximately 10 years prior to this. Tabbatha's child care setting is available for children aged infant through school age Mondays through Fridays for first shift care. Tabbatha describes her setting as "controlled chaos" in that the children are always busy, sometimes loud, but generally listen to the expectations. Tabbatha works hard to have an environment where parents know that their children are well cared for and as a result they are not worried about their safety throughout the day.

2. Identify Observed Strengths Of The Program

CHILD CARE ANNUAL EVALUATION

Tabbatha believes her greatest strength is treating the children like her own. They do not single children out for behaviors and understand that all kids are different. Tabbatha supports the families outside of child care as well by attending their activities, games, parties, etc... Tabbatha ensures her paperwork is generally up to date and has a good method of keeping track of due dates for children and/or required items in substitute/assistant files. Tabbatha is a participant in the CACFP food program for child care providers. Tabbatha is committed to providing quality care to children and updating her environment when possible. Tabbatha is in the early planning stages of a remodel that will include a new space for child care within her home.

3. Identify The Aspects That Fall Below The Standard

Nonsmoking signs are posted at every entrance of the home and in every vehicle used to transport children. Signs include telephone number for reporting complaints, and www.iowasmokefreeair.gov.
All dogs and cats have annual examinations. Records of the exams are on file and must verify that routine immunizations are current and animal is free of endo and ecto parasites.
Form 470-5153, Pet Health Examination Veterinary Health Certificate, is on file.
110.9 (2) b : Within six months of approval, a Physical exam report documented on form 470-5152, Child Care Provider Physical Examination Report, which is repeated at least every three years.
110.9 (2) c : Certification of two hours of approved training relating to identification and reporting of child abuse within six months of employment.
110.9 (3) b : Within six months of approval, a Physical exam report documented on form 470-5152, Child Care Provider Physical Examination Report, which is repeated at least every three years.
110.9 (3) c : Certification of two hours of approved training relating to identification and reporting of child abuse within three months of employment.
110.9 (4) j : Written permission from the parent(s) for their child to attend activities away from the child development home.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

Tabbatha needs no smoking sign on front door as she replaced screen door and did not put another sign back up.
Tabbatha's new cat needs pet health examination documented on required HSH form.
Tabbatha's assistant/substitute Madeline needs physical documented on required HHS form 470-5152.
Tabbatha's assistant/substitute Hunter needs to update his mandatory child abuse reporter training.
Of the child files reviewed, a few of them did not have the written permission from parents for their child to attend activities away from the child development home.

Tabbatha will send verification of the above items to Kathy by 5/18/2026. Items can be emailed to kathy.huinker@hhs.iowa.gov or texted to 563-949-6971.

5. Special Notes/recommendations

Targeted compliance of emergency preparedness plan completed. No changes needed - plan remains up to date.
