CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Deanne has been a registered child care provider with the state of Iowa for 30 years now. Deanne has been in the same house the entire time she's been registered. Deanne prefers tp care for children ages 18 months through four year old's, however, would consider up to school age. Deanne currently does not care for infants.

2. Identify Observed Strengths Of The Program

Deanne maintains her required paperwork in an organized manner with all of it being contained in binders making it easy to locate necessary items for compliance. Deanne believes her greatest strength is her flexibility in working with both parents and children alike. Deanne has a play based approach to child care where she proudly allows 'kids to be kids'. Deanne runs her child care more like a home, leaving the structured pre school activities for the actual school setting. Deanne has experience in working with a wide variety of children including kids with special needs and/or diagnoses including autism. Deanne presents as a very nurturing provider and the kids respond to her readily.

3. Identify The Aspects That Fall Below The Standard

110.9(4) : An individual file is maintained for each child and updated annually or when there are changes.

Deanne needs to update several children's files (have them signed and dated again as more than one year has passed).

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

Deanne needs to update her child files, however, they do not need to be submitted to this worker. They will be reviewed again at next year's compliance visit.

5. Special Notes/recommendations

Nothing noted.
