I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

Unity Point Health Child Development Center, formerly known as Iowa Health Child Development Center, has been providing child care services since 1979. The center serves children ages infancy through preschool age. The center is located in a single standing building. The center has a secured entrance. Sue Huffman has been the director since January 28, 2013. Sue has a Bachelors in Management. Sue has been at Unity Point Health Child Development Center since 1983. Donna Kennebeck is the On Site Supervisor. She began in this role in March 2013. Donna has a BA in Early Childhood Education. She has been employed at the center since 2003.

An unannounced visit was completed on today's date. All areas subject to DHS licensing rules were reviewed today. Mandatory postings are in place at the center's entrance. Classroom schedules and lesson plans are in place in each classroom. Each classroom has developmentally appropriate furnishings, supplies, toys and learning supplies. Classrooms have defined interest centers.

Sue was present today and she assisted with the visit today. The center had four infant classrooms, four toddler classrooms, two 2's classrooms, two 3's classrooms and two 4/5's classrooms in operation. All classrooms were at or above ratio requirements. Children were observed in their classrooms and a couple classrooms were observed in the indoor large motor play room. Staff were reading books to children. Staff were sitting on the floors in the infant and toddler classroom, feeding and playing with the infants. Children were playing Christmas tree ornaments and Christmas crafts in some classrooms. Children were observed playing in the interest areas individually and in small groups. Interactions between the staff and children were observed to be positive during the visit.

The center provides breakfast, lunch and afternoon snack. Meals are provided from Iowa Methodist cafeteria staff. Menus are on a four week rotation. Menus reviewed showed compliance with CACFP requirements.

The center has a playground with fencing. There are several small climbing structures. There is poured rubber for surfacing material. The center completes monthly playground checks.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

This center is accredited through NAEYC. This is a big accomplishment for centers and an indication of the center's commitment to providing quality child care. Sue has served as director of this center for several years. The center benefits from her leadership and experience. Classrooms are well furnished with age appropriate toys and furnishings. Lead teachers of the classrooms have a two year degree or more. Teacher assistants have CDA's. Administrative records are well maintained, especially given the size of this center.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

There were no licensing violations cited during this annual visit.

V. SPECIAL NOTES/RECOMMENDATIONS:

The center has a full license.
