CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Carrie initially provided in home child care beginning in 2008 until 2013 when she chose to stop doing care at that time. She got registered again in 2022. She is currently working on Child Net Certification. Shee does not currently care for school aged children but would be open to that age group in the summer-time. She does participate in the Food program.

2. Identify Observed Strengths Of The Program

Carrie has her lower level of the home set up strictly for childcare purposes. She has separate areas designated for different activities and age groups.
Carrie has a nice yard that is fenced in.
Carrie's policies and contract was thorough and nicely written. She already had documentation of the new rule effective July 1 of notifying parents that in lieu of immunizations, they may submit an exemption for immunizations.
Carrie does utilize an Ages and Stages developmental took with the children that identifies milestones.
Carrie had all her documentation organized nicely in a binder, so this worker was able to review the documentation while Carrie was able to continue to provide close supervision to the children.
This worker observed positive interactions between Carrie and the children on this date.

3. Identify The Aspects That Fall Below The Standard

Carrie was in full compliance with all mandated regulatory requirements of a Registered Child Development Home.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

NA

5. Special Notes/recommendations
