	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Nate Knepper **Date:** 04-02-2024

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An off-year visit was conducted on 4/2/24. The director was present for the duration of this visit as was a substitute.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, ratios, nutritional practices, health and safety practices, playground observation, field trip and transportation practices, and administrative review.

ELM St. Preschool opened in 2000 and is primarily located in a classroom in the upper level of the Zion Lutheran Church in Ogden, IA. The preschool is overseen by a Board. The director of the preschool as of 5/2021 is Amanda Stephens. Amanda has a BS degree and a Master's degree in child related fields. Amanda also has past experience working with children in a school setting.

The preschool uses the Creative Learning Curriculum for their three, four, and five year old children. Children attend Mondays, Tuesdays, Thursdays, and Fridays from either 8:30am-11:05am or 12:30pm - 3:05pm. There are not any classes on Wednesdays.

During the visit, children were observed playing at the different learning stations throughout the classroom. Later, children and staff were singing the "clean up" song as they picked up their toys and other equipment. At the end of the visit, a staff member was facilitating circle/group time and was leading a discussion on things people see in the Spring months.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

The preschool has a good working relationship with the church overall.

The program has good partnerships with other community businesses.

There is a secure entrance to get into the upstairs preschool area.

The preschool participates in QPPS. The program is also now in the process of getting their IQ4K status. IQ4K is a voluntary program based on best practice.

The preschool uses an electronic app to communicate with parents during the day (See Saw).

A weekly newsletter is sent out to parents which also includes the food menu for the week.

Enrollment remains steady and there is again a waiting list for enrollment.

Classroom pictures and art work are posted.

Good child-staff interactions were observed. There were lots of activities to keep children's interested.

The director of this program is organized and detailed.

Home visits are done before the start of every school year as well as an open house visit to the program.

The Board is very involved with the program and supportive.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.9(2)c: All files contain information regarding the specific health and medical needs of a child including information regarding any prescribed treatment.
Number not in compliance: 1 child was past due for another annual physical.

109.15(4)a: Written policies developed for food brought from home for children under five years of age not enrolled in school and is provided to parent at admission. Food brought from home for children under five years of age not enrolled in school is monitored and supplemented if necessary to ensure CACFP guidelines maintained.
Fruit gummy snacks are not considered a credible food item even for children with allergies.

109.15(5)b: Sanitary and safe methods in food preparation, serving, and storage sufficient to prevent transmission of disease, infestation, and spoilage are followed.
There were a couple of issues with dry food storage (cereal).

V. SPECIAL NOTES/RECOMMENDATIONS:

Radon testing was last conducted 3/11/24 - 3/14/24. Radon levels came back below the 4.0 cutoff. Because radon levels were below 4.0, the center doesn't have to test again until five years from the 3/2024 testing. If testing in 3/2029 comes back 4.0 or higher, the center will have to do a long-term test and go back to testing every two years at least temporarily.

The annual boiler inspection on file expires 2/28/2025.

It was previously noted that the center takes walking field trips to the surrounding area and will also invite agencies into the center for presentations.

I-Power and IQ4K were discussed at the visit. Brightwheel and Playground were also discussed.

The CACFP phone app was shared during the visit. This can also be shared with parents.

The SING check needs to be checked all the way through if "further research" comes back. The director will do this tomorrow for her SING check.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
