	REVOCATION of license

Licensing Consultant: Heidi Hungate **Date:** 01-21-2025

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An unannounced off year visit was completed at this center on 1/14/25. Lindsay Wadsager is the center director for all of the YMCA IMV Kids Club sites, and she arrived at the center during the visit. Deja Taylor, School Age Program Director, also arrived at this site during the visit. Marian Mortensen is the approved on site supervisor, and she was present along with other staff. The center is one of several not for profit centers operated by the YMCA IMV. The YMCA IMV has a well-defined organizational structure. This program operates school year only for before and after school care for school age children for children attending this school.

The center continues to use the large cafeteria room of the Pleasant View Elementary School. The program utilizes several large tables for various activities and snack. The program provides games, writing materials, and plenty of space for the children to do indoor large motor activities. The children do have to travel quite a distance to use restroom areas for boys and girls for toileting and hand washing functions. The staff generally did a good job of supervising hand washing activities on the day of the visit. The children are able to use the gym space when available. All program space was observed.

Afternoon snack is served at the center. The center does participate in the CACFP. Staff state children are released from the program for breakfast provided by the school. The program utilizes the school kitchen area to store snack items where they have their own refrigerator/freezer unit and a storage tote used for some minor dry food storage.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

The program provides a needed service to the children and families that attend this school. The staff were observed to be involved in activities with the children and appeared to know the children well. The children respond well to the staff. Staff and child files were found to be organized. It is noted that the school district has entirely replaced the outdoor play area surfacing and equipment.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.10(9): First aid kit: The center shall ensure that a clearly labeled first aid kit that is sufficient to address minor injury or trauma is available and accessible to staff at all times when children are:In the center.In the outdoor play area.On field trips.
1. First aid kit missing the whistle, water bottle, liquid hand soap.

109.15(5)b: Sanitary and safe methods in food preparation, serving, and storage sufficient to prevent transmission of disease, infestation, and spoilage are followed.Staff preparing food that have injuries on hands wear protective gloves.Staff serving food use clean serving utensils and have clean hands/wear protective gloves.
1. Tables were not cleaned and sanitized as required prior to snack activity.

V. SPECIAL NOTES/RECOMMENDATIONS:

1. Ensure children remain seated in one location during snack.
2. Ensure children's personal items are in their basket provided by the center.
3. Gym needs complete emergency plan postings at all doors. This has been noted previously.

The center is always reminded to ensure that the licensed program space is always available for the full program use whenever the program is in session. The program cannot operate in alternate spaces in the building until and unless those spaces have been prior approved by DHS and the fire inspector for child care. If the cafeteria space is not available and there is no other space licensed, then the program should not operate.

The center will continue with a full license. The center is directed to correct the items cited and the concerns noted above and to submit a written and ensure items remain in compliance. A written response is not required. Thank you.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
