Findings:

This worker arrived to the home to find seven daycare children present. Of these seven children four are under 24 months and of these children one is under 12 months. Provider is within allowed category B numbers.
A tour of the home and outdoor area was completed. Lori needed to add a child's information to the emergency posting and was able to complete this during the visit. Lori had her fire extinguisher in her pantry and did not have a sign. During the visit she moved this to a location in her kitchen that is visible and therefore does not need a sign. During the visit Lori did not have her safety plan posted at her second exit. Lori sent this worker a picture on 2/9/2023, of her safety plan posted.
A review of records noted that Lori needs to obtain two updated annual physicals for children in care. Lori agrees to obtain these by 3/15/2023 and DHHS worker will verify at the 2024 compliance visit.

Suggestions/Recommendations:

Corrective Action Required:

Lori sent this worker photo verifying the safety plan was posted, she updated her emergency contact posting during the visit, and moved her fire extinguisher to a visible location during the visit. DHHS worker will verify the child file items at the 2024 compliance visit.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Please do not hesitate to contact me at DHS at 641-421-1219/anash@dhs.state.ia.us if you have any questions regarding this letter.
